Annual Catalogue

1910

We take pleasure in presenting to our patrons and friends our catalogue for 1910.

We offer our seeds with the full assurance that they are true and reliable, quality being always our first consideration, but at the same time we wish it particularly understood that we do not warrant them, for the ultimate success of a crop is dependent on so many contingencies that we cannot hold ourselves liable or responsible for failure. If the purchaser does not accept the seeds on these conditions, they must be returned at once.

In ordering goods please give your *Name, Post Office and State* in full, being particular to *write your name very distinctly*.

Remittances can be made by Post Office Money Orders, Bank Drafts, Express Orders or cash sent in registered letter.

Orders from unknown correspondents must be accompanied by a remittance or a satisfactory reference.

When ordering seeds by Mail postage must always be added at the rate of *eight cents per pound*, in quantities of one-fourth pounds and upwards. Seeds by packet and ounce will be mailed without extra charge.

In shipping we make no charge for delivery to railroads or express companies.

We are thankful for the generous patronage heretofore given and intend to continue to merit the same by exercising the utmost care and fidelity in promoting the interests of our customers.

R. B. DUNNING & CO.

LIBERAL REDUCTION TO CLUBS

Liberal reductions will be made to persons selecting packet seeds from our Catalogue, at the prices named, and will be forwarded, postage free, to any part of the United States.

Those remitting \$1.00	may select seeds in packets,	at Catalogue price amounting to \$1.25

This reduction is for *packet seeds only*. Seeds when ordered by the *ounce, pound or quart* will not be included.

Novelties and Specialties for 1910

Gold Coin Potatoes

Gold Coin Potato

A very hardy, all around general crop potato. White skinned with slight russeted appearance, flesh white and mealy. In form it is very regular, of a round oval shape. As a table potato it cannot be excelled.

Its yielding qualities are exceptionally large. We have grown this potato for two seasons. The 1908 crop yielded us 360 bushels per acre; our 1909 crop yielded us 390 bushels per acre of choice selected seed stock, all small and defective tubers being culled out.

Out of seven different varieties of potatoes grown by us last season the Gold Coin excelled all other varieties in their uniformity of size and fine general appearance and was excelled in yield by but one other variety by a very few bushels per acre.

Price, 40 cts. per peck; \$1.25 per bush.; \$3.25 per bbl.

Early Dew Drop Potatoes

An extra early variety and a very heavy producer for an early potato. The tubers are snow white with very smooth, velvety skin and shallow eyes. No potato can surpass it in uniform and handsome appearance. The quality is exceptionally good, very much above the average. They are very fine grained, white as flour and of splendid flavor. They are excellent keepers and retain their good eating qualities till late in the spring, which some of the early varieties do not. The vines grow tall, stand erect and are of vigorous growth.

Early Dew Drop Potatoes

Price, 40 cts. per peck; \$1.25 per bush.; \$3.25 per bbl.

Perfection Early Blood Turnip Beet

This beet we are putting on the market after a number of years of careful selection.

It is very early with exceedingly small tops, roots globular and very smooth, flesh of a bright blood red color, very crisp, tender and sweet. It is equally good for the market or home garden as it is an excellent keeper as well as being very early.

Per pkt., 5 cts. Per oz., 10 cts. Per $\frac{1}{4}$ lb., 25 cts. Per lb., 75c.

Perfection Blood Turnip Beet

Sutton's Excelsior Pea

Sutton's Excelsior Pea

A dwarf, early, wrinkled variety, height about 15 inches, pods large and well filled; a very heavy yielder and of delicious flavor. In habit and growth it resembles the Nott's Excelsior, but is more prolific and has larger pods. This is without doubt the best early, dwarf pea on the market.

Prices, Pint, 20 cts. Quart, 30 cts. Peck, \$2.00. Bushel, \$7.00.

If peas are ordered to go by mail add 8c per pint and 15c per quart for postage.

Early Gem Sweet Corn

Extremely early, of superior quality and one of the first to mature.

This corn has a medium sized white ear with rich, tender kernels. It is from seven to ten days earlier than the Cory and far superior in quality.

Out of twelve well known standard early varieties of sweet corn tried by us last season, the Early Gem proved the earlier by at least a week.

Prices, per pkt., 10 cts. Pint, 20 cts. Quart, 30 cts.

Our stock of this variety of corn is very limited this season. When sending in your orders for it please state if we can substitute any other variety for same in case we are sold out.

If corn is ordered sent by mail add 5c per pint and 10c per quart for postage.

Golden Bantam Sweet Corn

Early Gem Sweet Corn

Early Golden Bantam Sweet Corn

Extremely Early Delicious in Flavor

This corn has a medium-sized ear of a bright golden color. It is extremely sweet, of delicious flavor and unusually tender.

The stalks grow about five feet high, and are very vigorous, bearing two to three well-filled ears on each stalk.

It is fully as early as the Cory and of far superior quality.

Price, per pkt., 5 cts. Pint, 15 cts. Quart, 25 cts. Peck \$1.25.

If corn is ordered sent by mail add 5c per pint and 10c per quart for postage.

Gradus or Prosperity Pea

Gradus Peas

Sparks' Earliana Tomato

A New Variety and the Earliest Large
Tomato Yet Introduced

It is of handsome shape and beautiful red color. The flesh is very firm and solid and of excellent quality. A good cropper, making it one of the best for the market and home garden.

Pkt., 10 cts.; oz., 35 cts.; 2-oz., 60 cts.;
¼-lb., \$1.00.

This is a New, Very Large, Extra Early, Variety of Wrinkled Pea.

The most desirable sort for the home and market garden, large podded and of splendid quality.

The vines grow about three feet high and are vigorous and hardy. The immense pods are as large as those of the Telephone, uniformly well shaped and handsome, and more attractive than those of other extra early varieties.

They ripen slowly and continue fit for use much longer than most varieties, making this by far the most desirable sort for the home garden. The peas are very large, of splendid quality and beautiful color, which they retain after cooking.

Pint, 15 cts. Quart, 30 cts. Peck, \$2.00. Bush., \$7.50.

If Peas are ordered sent by mail, add 8c per pint, and 15c per quart for postage.

Selected Northern Grown Vegetable Seeds

Seeds sent by mail or express as the purchaser may wish. When ordering to be sent by mail, add postage for **Beans and Peas** at the rate of **15 cents** per quart, to **Sweet Corn**, **10 cents** per quart, and to **Flint or Field Corn**, **15 cents** per quart to catalogue prices.

Bulk seeds by the pound, if ordered sent by mail add **8 cents** per pound for postage.

Seeds in packets and ounces sent by mail free.

ARTICHOKE—Jerusalem

From four to five bushels will seed an acre; they should be cut the same as potatoes, one eye on a piece being sufficient, planted in May, in rows three feet apart and about eighteen inches in the rows, and covered about two inches deep.

They are the best hog food known, and are attracting much attention on account of their great fattening properties, and for milch cows, they excel any root grown for increasing the flow of milk, and make it much richer.

An acre will keep from 20 to 30 hogs during the fall and winter months.

They are well adapted to any soil where corn or potatoes can be grown.

Jerusalem Artichoke. Tubers, per quart, **25 cents**; per peck, **\$1.00**; per bushel, **\$3.00**.

ASPARAGUS

This is one of the first and finest spring relishes which comes to the table from the garden, and it really requires very little trouble in cultivation, since a bed once properly made and planted will last for years. The soil for the bed can hardly be made too rich, and the fertilizer should be well trenched-in to the depth of 2 feet or more. The roots should be planted as early in spring as the ground can be prepared, setting them a foot apart in rows 3 or 4 feet apart, with the crowns from 4 to 6 inches below the surface of the bed. Asparagus seed may be sown directly in the permanent bed and the plants thinned as they grow; or it may be sown elsewhere, and the seedlings transplanted the second year. An ounce of seed will sow 50 feet of drill, and produce about 300 plants. Fair crops may be expected the third year.

Colossal. Widely cultivated; very large, deep green; tender stalks of good flavor; the roots are vigorous and productive. Pkt. Oz. ¼lb. 5 .10 .20

Improved Golden Wax Beans

BEANS--Dwarf or Bush

One quart is sufficient for one hundred feet of drill; two bushels for one acre in drills.

A succession of sowings can be made from the first week in May until July. Plant in drills about two inches deep, and from eighteen inches to two feet apart, according to the richness of the soil; the poorer the soil the closer they can be planted; the plants should be about three inches apart.

Beans ordered sent by mail are subject to an extra charge of 15 cents per quart and 8 cents per pint for postage. Pints furnished at quart rates.

Burpee's Stringless Pod Bush Beans. The only stringless green pod bush bean in cultivation, consequently it surpasses all others in crisp, tender flavor. All are absolutely stringless, and of a beautiful fleshy appearance. It is very early and very prolific.....	.30	2.00	7.00
Dwarf Horticultural. A fine early shell bean.....	.20	1.50	5.50
Improved Goddard or Boston Favorite. A fine shell bean, very similar to the Dwarf Horticultural, but much larger. A great favorite throughout this section as a shell bean for market gardeners as it matures earlier than the large pole varieties25	1.75	6.00
Currie's Rust Proof. Straight, yellow, stringless Pod. Unsurpassed for quality.....	.25	1.75	6.00
Improved Golden Wax. An improvement on the old Golden Wax. The pod is somewhat round, meaty and entirely rust proof25	1.75	6.50
Davis Kidney Wax. This plant is a vigorous grower, carrying the pods well up from the ground. In productiveness it is astonishing, as it will produce at least one-third more bushels of pods to the acre than any other Wax Bean. The pods are long, straight, oval, of clear, waxy, white color and handsome, often growing to a length of seven to eight inches , and when fit for use, are quite stringless and of fine flavor.....	.25	1.75	6.50
Wardwell's Kidney Wax. Early; vine medium, erect, hardy, productive. Pods long, broad, flat, brittle and of a delicate waxy-yellow. Very attractive market sort. Beans large, kidney shaped, white and dark markings about the eye. First-class snap bean, and a good one for winter... ..	.25	1.75	6.50
Early Mohawk. Very early, hardy and productive. Large flat, dark green pods, five to six inches in length.....	.25	1.75	6.00
Low's Champion. One of the best for either snap or shell beans. Very productive; large, green, flat pods.....	.25	1.75	6.50
Refugee Wax. Long, round, yellow wax pods, very productive, and not inclined to rust.....	.25	1.75	6.50
Long Yellow Six Weeks. Hardy and prolific, an excellent early string bean; pods green.....	.20	1.50	5.50
Yellow Eye. (Old Fashioned). Very productive; not as large as the improved, but of better quality for baking..	.20	1.50	5.50

	Qt.	Pk.	Bu.
Improved Yellow Eye. Very prolific; fine for baking.....	.20	1.50	5.00
Improved White Pea. Excellent for baking20	1.25	4.50
Early Pearl Pea Beans. This is a small, round, pure white variety; very early and very prolific; and of excellent quality for baking. Last season these beans matured and were thoroughly ripe in eleven weeks from planting.....	.25	1.50	5.50

Lazy Wives Pole Beans

BEANS—Pole or Running

One quart will plant one hundred hills, ten to twelve quarts to the acre.

These are more tender, and require rather more care in culture than the bush beans; they succeed best in sandy loam, which should be liberally enriched with short manure in the hills, which are formed according to the variety, from three to four feet apart; from five to six seeds are planted in each hill, about two inches deep.

Beans ordered sent by mail are subject to an extra charge of 15c per quart for postage, pints furnished at quart rates

Horticultural Pole.

The most popular variety for both string and shell beans

Qt.	* Pk.	Bu.
.25	1.75	6.50

Mammoth Horticultural.

An improvement over the common Horticultural, being very much larger and much more productive.

.30	2.00	8.00
-----	------	------

Indian Chief or Black Wax.

A very tender string bean....

.25	1.75	6.50
-----	------	------

Mont d'Or, or Golden Butter.

Earliest of the wax pole varieties, unsurpassed in quality

.25	1.75	6.50
-----	------	------

Lazy Wives. Immensely popular everywhere. Pods are large, green, entirely stringless, and of excellent flavor. It is exceedingly productive and easily gathered. Such is the peculiar taste and pleasant flavor of this bean that many persons could not be induced to eat other varieties of string beans, after tasting Lazy Wives. Excellent for shelling or baking.....

.30	2.00	7.00
-----	------	------

Red Cranberry. Small, round green pods, almost stringless, very tender. One of the very best for a string bean.....

.30	2.00	7.00
-----	------	------

Kentucky Wonder Beans

Scarlet Runner. Very ornamental, free climber with-
 bright scarlet flowers.....

Pkt.	.10	Qt.	.30	Pk.	1.75
------	-----	-----	-----	-----	------

White Dutch Runners.
 Large, white flowers; often planted with the scarlet variety; the effect is very beautiful.....

Pkt.	.10	Qt.	.30	Pk.	1.75
------	-----	-----	-----	-----	------

BEETS

One ounce to fifty feet of drill; six pounds to the acre.

The best results are obtained on a deep, rich, sandy loam. For early use sow as soon as the ground will admit, in drills fourteen inches apart, and thin to four inches; for the main crop sow the first week in May, and for winter use as late as June. The soil should be deeply manured and well cultivated. In lifting and storing the roots, care must be taken that they are not bruised.

**KENTUCKY WONDER
 or Old Homestead**

A very prolific sort producing its pods in large clusters. Pods green, very long, often reaching nine or ten inches, nearly round when young and very crisp, of fine flavor and most excellent for snap beans. One of the best and most profitable beans for the market gardener, the pods being so showy and produced in great abundance..

Qt.	Pk.	Bu.
.30	2.00	7.00

Early Jersey Lima.

Of large size. Very tender and of delicious flavor. Very early. Out of a number of varieties that we have tried, we found this to be the most desirable sort for this climate

.30	2.00	7.00
-----	------	------

Detroit Dark Red Beet

Perfection Beet. (See Page 2).

Detroit Dark Red Beet. As early as Crosby's Egyptian, with flesh a very dark, intense red. Tops small, roots globular or ovoid; very tender and sweet; good keeper. An early beet of the finest quality for either home or market use.....

Pkt.	2 oz.	¼lb.	1b.
5	.10	.20	.60

Dirigo Extra Early. Originated with a leading market gardener and was brought to perfection after years of careful cultivation. It is a rich, blood-red beet of fine grain and flavor, is earlier than either the Egyptian or Eclipse, of smooth and rapid growth; top and tap root being very small.....

5	.10	.20	.60
---	-----	-----	-----

Crosby's Egyptian. This variety resembles the Egyptian only in its extreme earliness. It grows much larger and lighter colored. It is one of the best sorts for early planting as it reaches a usable size sooner than any other sort

5	.10	.20	.60
---	-----	-----	-----

Eclipse. This variety is about as early as the Egyptian, but of larger and finer quality.....

5	.10	.20	.60
---	-----	-----	-----

Bastian's Early Blood Turnip. Larger than the Egyptian and follows it and the Eclipse in point of earliness; not so dark in color....

5	.10	.20	.60
---	-----	-----	-----

Dewing's Blood Turnip. Of fine form and flavor and deep blood red; a desirable variety.....

5	.10	.20	.60
---	-----	-----	-----

Long Smooth Blood Red. This is a long, smooth beet, growing to good size

5	.10	.20	.60
---	-----	-----	-----

Edmand's Early Blood Turnip. The largest sort for general crop. In quality one of the finest, exceedingly dark, shape globular, having only one tap root. Very popular with marketmen

5	.10	.20	.60
---	-----	-----	-----

Swiss Chard. Used for greens

5	.10	.20	.60
---	-----	-----	-----

Giant Feeding Sugar Beet

Giant Yellow Intermediate

Sugar Beets and Mangel Wurzel

Varieties Grown for Feeding Stock
(Sown in May or Early in June).

Six Pounds Per Acre.

Giant Feeding Sugar. A cross of the Mammoth Red Mangel and Improved Sugar Beet. Roots large, long and smooth, and of a beautiful light rose tint. Yields nearly as large a crop as the Mangels, and supplies a food of very much higher nutritive value. The roots grow partly out of the ground and can be harvested very easily 2oz. ¼lb. 1lb.
.10 .20 .50

Lane's Improved Sugar. A well known variety; valuable for feeding to cattle. 10 .15 .35

Giant Yellow Intermediate. This variety grows more than half above the ground, and is a russet, yellow color. The root is ovoid, intermediate between the long and globe varieties. Flesh white, firm and sweet, much liked by cattle. Produces enormous crops and a good keeper. 10 .15 .35

Yellow Globe Mangel Wurzel. Roots of large size, and globular form; very productive. 10 .15 .35

Improved Mammoth Long Red Mangel Wurzel. A variety producing roots of mammoth size. 10 .15 .35

Golden Tankard. A half long variety of a bright yellow color. 10 .15 .50

Norbiton Giant Mangel Wurzel. Extra fine Long Red, very large 10 .15 .35

CABBAGE

One ounce will produce about three thousand plants.

The Cabbage is one of the most important vegetables, and some of its varieties universally cultivated. The ground must be highly manured, deeply dug or plowed, and thoroughly worked, to insure good, full sized heads. A heavy, moist and fresh loam is the most suitable. The early sorts should be sown very early in the spring, in hot-beds, or later in the open ground. Eighteen inches by three feet apart is the common distance.

Sure Head Cabbage

Early Winningstadt. An excellent sort; heads of large size.....

Pkt.	Oz.	¼lb.
5	.20	.60

Early Jersey Wakefield. This is the standard early pointed-head cabbage. For the market garden it is the best, and for early home use all should have it.....

5	.20	.60
---	-----	-----

Henderson's Early Summer. The standard summer variety. Unexcelled for the market garden and good for home use.....

5	.20	.60
---	-----	-----

Early Spring. The only Extra Early Round, Flatheaded Cabbage in the world. Coming in with the Wakefield, and yielding one-third more than any other Extra Early. This variety is of the Early Summer Type, but about one-fifth smaller, and has only four to five outside leaves, and these so small that it may be planted twenty-one inches apart, 14,500 to the acre. The stem is short, making almost the whole plant edible. It is finely bred, the veining of the leaves being particularly fine. There is no cabbage we know of having a more solid head; it has also the peculiarity of heading firmly at an early stage in its growth, so that the finest cabbage, though small, can be obtained long before it has attained its mature size

5	.30	1.00
---	-----	------

Premium Flat Dutch. The old standard variety for main crop. It has long stood the test and is yet one of the very best....

5	.20	.60
---	-----	-----

Stone-Mason Drumhead. One of the very best for a main crop

5	.20	.60
---	-----	-----

Deep Head. An early strain of the Flat Dutch type. The plant is rather below medium size; very short stemmed and few leaved. The leaves are large, broad and quite thick. The head is oval and very large for size of plant, solid and of good quality. It matures just after the All Seasons' Cabbage and is very popular with gardeners...

Pkt.	Oz.	¼lb.
5	.20	.60

Fottler's Improved Brunswick Cabbage

All Seasons' Cabbage.

Early; solid and sure headed 5 Pkt. Oz. ¼lb. .20 .60

Fottler's Improved Brunswick.

An excellent early Drumhead variety; produces a firm and solid head 5 .20 .60

Henderson's Succession.

One of the finest for a second early or late sort. 5 Pkt. Oz. ¼lb. .20 .60

Autumn King.

Entirely distinct, one of the best keepers, enormous sized head, of that dark shade of green, which is most desirable in a cabbage, and has such small outer leaves that it can be planted much closer together than the ordinary late sorts; therefore can be relied upon to produce a greater weight of crop per acre than any other variety. A distinct feature of the Autumn King is the peculiarly crimped leaf, which not only adds to its appearance, but enables it to be distinguished anywhere. 5 .20 .60

Mammoth Rock Red.

This is the best, largest and surest heading red cabbage ever introduced. The head is large, round, very solid and of deep red color. 5 .20 .60

Sure Head.

Produces large, round, flattened heads of The Flat Dutch type, and is remarkable for its certainty to head. It is all head and sure to head even under unfavorable conditions. The heads are remarkably uniform, very hard, firm and fine in texture, and, ordinarily, weigh from 10 to 15 pounds each. Has but few leaves, keeps well. A good shipper, and just the variety to suit market gardeners and farmers. 5 .25 .75

Danish Ball Head.

An extremely hardy, imported cabbage, which is growing in popularity in America, having proven itself one of the very best winter sorts. It is a very sure header, very solid and heavy, an extra good keeper and seller. It is medium to late, but is generally grown as a late crop. Heads are not extra large and without many outer leaves. It is the best cabbage to raise where it is sold by weight, as its solidity is not equalled by any other cabbage grown 5 .25 .75

Early Spring Cabbage

CARROTS

One ounce to one hundred feet of drill; three to four pounds to the acre. Carrots require a very finely pulverized soil to grow them to perfection. A good, light and well enriched sandy loam is the best for this crop. For field culture, sow in drills three to three and one-half feet apart, so as to cultivate by horse. Market gardeners sow in drills about eighteen inches

apart, and cultivate by hand. For early crops cover one-half an inch deep, and thin to six inches apart, in the rows; for late, cover three-fourths of an inch deep, and thin to four inches.

Early French Forcing. The earliest variety in cultivation and the best suited for forcing and early market gardening. Tops, small and divided. The roots are a reddish orange color and nearly round. When fully matured, they are about two inches in diameter Pkt. Oz. ¼lb. 1b.
 5 .15 .25 .85

Ox Heart Carrots

Long Orange. Roots of large size heavy cropper and excellent keeper. Pkt. Oz. ¼lb. 1b.
 5 .10 .20 .75

Danvers' Half Long. In form it is midway between the Long Orange and Ox Heart. The root is of a dark orange color and grows very smooth. Very productive 5 .10 .25 .80

New Ox Heart. A very early and heavy yielder. Thick and short in form, scarlet in color 5 .10 .25 .80

Long White Belgium. Large long rooted variety; valuable for feeding stock, Pkt. Oz. ¼lb. 1b.
 5 .10 .20 .75

Cauliflower

One ounce will produce about three thousand plants.

Any soil that will grow early Cabbages will grow Cauliflower, as their requirements are almost similar; but as the product is more valuable, extra manuring and preparation of the soil will

Danvers' Half-Long Carrot be well paid.

The seeds may be sown in the hot-bed in March or April, and transplanted to open ground about the first of May.

Henderson's Early Snowball. A very reliable early variety Pkt. Oz.
10 2.00 **French Forcing Carrot**

Early Favorite. One of the best early varieties, very hardy, easily grown and will head under conditions in which many sorts will fail. Heads, large, solid, crisp and tender. 5 1.00

CELERY

One ounce of seed produces about four thousand plants.

To have celery early, it should be sown in a hot bed quite early in the spring, and when three inches high plant out in a well prepared bed, which must be covered in frosty weather. For the principal crop, sow early in spring, very shallow in the seedbed, and when the plants

Golden Self-Bleaching Celery

are about six inches high, transplant them about six inches apart into trenches for blanching. Dig the trenches four feet apart, a foot wide and ten inches deep. Fill in five or six inches of well rotted manure, and mix thoroughly, half a spade deep, with the earth at the bottom. The tops of the plants should be shortened before they are set. Earth up to blanch, three or four times during their growth, taking care that no earth falls in the center of the plants.

Boston Market. A favorite variety, remarkable for its tender, crisp, succulent stems, keeps well 5 .20

Henderson's White Plume. Crisp, solid and possessing a sweet, nutty flavor; requires very little labor in bleaching. 5 .20

Golden Self-Bleaching. A self-bleaching early golden-colored variety that is very popular 5 .25

Henderson's Early Snowball Cauliflower

CORN—Sweet

One quart to two hundred hills, ten quarts to an acre.

The Sweet or Sugar varieties being liable to rot in cold or wet ground, should not be planted before the middle of May and for a succession continue planting every two weeks, until July, in rich, well manured ground, in hills three feet apart, each way, covering about half an inch and thin out to three plants to a hill, or plant in rows four feet apart, and to stand eight inches apart in rows. The field varieties should be planted four feet apart each way leaving three plants to a hill.

Early Gem Sweet Corn. (See page 3).

Early Golden Bantam Sweet Corn. (See page 3).

Holmes' Premo. A very early, pure sweet corn. The

Cory Corn

stalks grow about five feet high. Ears medium size and well filled. Kernels white and of excellent flavor. One of the best early varieties grown..... 5 .20 1.25 4.00

Early Cory. (Red Cob). A very early dwarf variety, an excellent sort, sweet and good flavor..... 5 .20 1.25 4.00

White Cory. Similar to the above, but with white cob and white kernels..... 5 .20 1.25 4.50

Early Marblehead. This resembles very closely the Cory, but is not so early..... 5 .20 1.25 4.00

Early Crosby. Not so early as the Cory or Marblehead; of very rich, sugary flavor..... 5 .20 1.25 4.00

Late Crosby. This resembles the Early Crosby. It has the same rich, sugary flavor. Ears large and well filled. Kernels white. About one week later than the Early Crosby. One of the best medium late table and market varieties ever introduced..... 5 .20 1.00 3.50

Extra Early Evergreen.

This is a strain of this late variety of sweet corn that will mature in this climate. We have been troubled in the past by our Evergreen Sweet Corn not maturing, owing to the short season in this section. We have tried this strain for the past few seasons and have been very much pleased with it. All lovers of sweet corn should not fail to try this variety. It is very large and deep kernalled with a sweet, sugary flavor..... 5 .20 1.25 4.00

Black Mexican. Grain bluish black, but is especially rich in sugar qualities.... 5 .20 1.25 4.00

Sweet Corn ordered sent by mail is subject to an extra charge of ten cents per quart and five cents per pint for postage. Pints furnished at quart rates.

CORN—Field

Early Yellow Canada. A very early, eight-rowed variety..... 5 .10 .60 2.00

If ordered sent by mail add fifteen cents per quart and eight cents per pint for postage.

Red Cob Ensilage. A pure white corn. It is sweet, tender and juicy, has short joints, grows to a great height with an abundance of leaves..... 5 .10 .40 1.40

Early Yellow Canada Corn

Evergreen Sweet Fodder. For cutting green and feeding to stock this variety excels all others in tenderness, sweetness and nutriment. Also popular as a silo variety.....

	Qt.	Pk.	Bu.
	.10	.50	1.75

Early Sanford. A white flint variety, very valuable for ensilage and fodder, the stalks being very large and numerous. Particularly adapted to this climate as it ears well and if planted early, will come to maturity.....

	.10	.50	1.60
--	-----	-----	------

Japanese Climbing Cucumber

The hills should be four or five feet apart in each direction. When all danger from insects is passed, leave but three or four of the strongest plants in the hill.

Japanese Climbing.

A distinct and valuable variety quickly climbing poles or trellis, taking up less room in the garden and keeping the fruit up from the ground and clean. It produces

Leaming. An early yellow dent variety. Very productive. One of the best for ensilage or green fodder.....

	.10	.40	1.40
--	-----	-----	------

In ordering corn in quantities of 1-2 bushel or over, add 20 cents for bags capable of holding 2 bushels each.

CRESS OR PEPPER GRASS

A well known salad. Requires to be sown thickly and covered very slightly. Sow at frequent intervals to keep up a succession as it soon runs to seed.

Double Curled. Very fine; may be cut two Pkt. Oz. or three times..... 5 .15

CUCUMBER

One ounce to fifty hills. The Cucumber is a tender annual, and therefore should not be planted or set out in the open air until there is a prospect of continued warm and pleasant weather. Cucumbers succeed in warm, moist, rich, loamy ground.

Improved White Spine Cucumber

	Pkt.	Oz.	½lb.	1b.
very long, round, crisp fruit of fine flavor and is very prolific,	5	.15	.45	1.50
Early Russian. The earliest variety.....	5	.10	.30	1.00
Early Frame. An early standard variety; about five inches long	5	.10	.30	1.00
Improved White Spine. Superior for table use, very productive, medium sized, straight and well formed	5	.10	.30	1.00
Nichols' Medium Green. This is a very fine table variety, and also good for early forcing. Color, dark green; flesh, very crisp; very prolific and always straight, smooth and handsome. It also makes a very desirable sort for pickles....	5	.10	.30	1.00
Early Green Cluster. Grows in clusters, early and productive	5	.10	.30	1.00
Improved Long Green. Long and crisp; a popular and reliable variety for pickles.....	5	.10	.30	1.00
Boston Pickling. The finest variety to grow for pickles....	5	.10	.30	1.00

DANDELION

One ounce to one hundred ft. of drill. The Dandelion resembles Endive, and affords one of the earliest, as well as one of the most healthful, of spring greens. Sow as early as the weather will permit, in good, well-enriched soil, in rows twelve inches apart, covering seed one-fourth of an inch deep, the earth firmly pressed over the seed.

Improved Thick-Leaved. Best variety. Pkt. Oz. ½lb. .10 .50 1.60

Improved Thick-Leaved Dandelion

ENDIVE

One ounce to one hundred and fifty feet of drill.

Endive may be grown at any season of the year, but is more generally used late in the fall. Sow the seed during May or June, in drills, fourteen inches apart, and when well established, thin to one foot apart. When nearly full grown, tie the outer leaves together over the center in order to blanch the heart of the plant.

Green Curled. This is the hardiest variety, and very desirable for the home and market garden. The deep green leaves are beautifully cut and curled, easily blanched, and become very crisp, tender and fine flavored.....

Pkt. Oz.
5 .20

White Curled. By far the most beautiful variety. Plants moderately dense, with divided leaves, which are coarser and less tender than those of the Green Curled; but even the outer leaves are very light colored, frequently white, so that the plant is very attractive and always brings the highest price on the market.....

Green Curled Endive

Pkt. Oz.
5 .20

London Flag Leek

LEEK

Belongs to the onion family and by some preferred to that vegetable. Sow the seeds and care for the young plants same as for onions, but they need a little more room in order to develop fully. When the young plants are about the size of a goosequill, transplant to a prepared bed in rows one foot apart and four or five inches in the row. Set the roots deep and draw the earth to them when cultivating, so that they may be well blanched by the time they are fit for use.

London Flag. It is the variety more cultivated in this country than any other. It is hardy and of good quality

Pkt.	Oz.	¼lb.
5	.20	.60

LETTUCE

One ounce to one hundred and twenty feet of drill.

Lettuce thrives best in rich, moist ground. Sow the seed in hot-beds in February or March, and transplant into a sheltered border with a southern exposure. For successive crops, sowings may be made in the open ground as early as the spring opens, and continuing until July.

Lettuce should always be transplanted in order to make it head well.

Improved Hanson.

Forms very large firm heads, which are deliciously sweet, crisp and tender; heads green outside and white within. For outdoor culture unexcelled

Pkt.	Oz.	¼lb.
5	.20	.60

New Sensation.

This remarkable variety has rapidly grown in popularity until it has become the leader among gardeners.

Big Boston Lettuce

No other lettuce thrives so well when grown at any season of the year, withstanding the hottest weather in a remarkable degree. It is a beautiful light yellowish-green color, leaves much blistered on the surface, and has the peculiarity of forming a solid head, even before half grown. Its uniform, handsome and even growth is unequalled and it is one of the easiest to grow.

Pkt.	Oz.	¼lb.
5	.20	.60

Early Tennisball. White seeded. Extensively grown for forcing and heading under glass, heads firm and good size; very white and crisp.

5	.15	.50
---	-----	-----

Early Tennisball. Black seeded. A very popular sort for open ground culture; forms a handsome head and is crisp and tender

5	.15	.50
---	-----	-----

Boston Curled. A variety of great beauty and of superior quality. Leaves beautifully curled; attractive on table.....	Pkt. 5	Oz. .15	¼lb. .50
Black Seeded Simpson. Heads very large with light colored leaves; leaves being almost white and beautifully curled. Stands summer heat splendidly and remains long fit for use..	5	.15	.50
Ferry's Early Prize Head. Forms a large, tender and crisp mass of leaves of superior flavor and very hardy. Slow to run to seed and does not become bitter as early as many other sorts	5	.15	.50

Citron Preserving Melon

Big Boston. This is a new, very large strain of White Tennisball or Boston Lettuce excelling all other strains in size. Of great value to market gardeners

White Cabbage. Large, extra tender, and is a good keeper.....

MELON—Musk

One ounce for sixty hills; two to three pounds for an acre.

Melons thrive best in a moderately enriched light soil; the hills should be six feet apart each way. After all danger of frost is past, plant twelve or fifteen seeds in each hill, and when well up, thin out to three or four plants in each hill.

Nutmeg. Named from its shape; flesh green and sweet.....	Pkt. 5	Oz. .10	¼lb. .25
Large Round Yellow Cantaloupe. Flesh reddish orange, sweet and of good flavor; an early and productive variety.....	5	.10	.25
Miller's Cream. This is one of the finest, all-round melons in existence. Flesh of a rich salmon color, very sweet and melting in quality.....	5	.10	.25
Extra Early Hackensack. A green fleshed nutmeg of splendid quality. It is very early and a prolific bearer.....	5	.10	.25

MELON—Water

One ounce for thirty hills; four to five pounds for an acre. Plant in hills eight feet apart, and cultivate same as Musk Melon.

Vick's Early. Productive, early and finely flavored; red flesh.	Pkt. 5	Oz. .10	¼lb. .25
Mountain Sweet. One of the best for general culture.....	5	.10	.25
Citron. The standard variety for preserves	5	.10	.25

MUSTARD

Sow thickly in rows at different times from May to July, and cut when about two inches high. Used as a salad or cut and boiled for greens. The seed is used for flavoring pickles, etc.

White London. The leaves are light green, mild and tender when young; seed light yellow.....	Pkt. 5	Oz. .10	¼lb. .25
---	--------	---------	----------

ONION

One ounce to one hundred feet of drill; five pounds to the acre. No vegetable is more extensively known and cultivated than the Onion. A good crop is impossible unless the soil is very rich and kept clean. Use well-rotted manure freely, and get the crop in as early as possible in spring, no matter if the weather is cold and unpleasant. Sow in drills one foot apart, and cover about one-third of an inch, treading or rolling after sowing so that the hot, dry atmosphere may not dry up and destroy the sprouting seed.

Yellow Globe Danvers Onion

Yellow Globe Danvers.—Extra choice. Maine grown seed. This is far superior to the western grown seed as it is much earlier and is better adapted to our climate. It is sure to produce a good crop. The most profitable variety for the market gardener 5 .20 .75 2.25

Yellow Globe Danvers. The most profitable variety to raise, very productive, a good keeper, of mild flavor, and always meets with ready sale. 5 .15 .50 1.75

American Silver Skin. Flavor mild and pleasant. Skin silver white. Handsome in appearance. Highly esteemed for pickling when young; also for market in early winter Pkt. Oz. ¼lb. 1b. 5 .20 .60 2.25

Prize Taker. This is one of the best of the huge foreign varieties. When started under glass and transplanted into open ground, they bottom well, are nearly free from stiff neck, and when offered for sale always attract marked attention. The variety is without doubt the largest onion grown, samples under special culture sometimes weighing five pounds Pkt. Oz. ¼lb. 1b. 5 .20 .75 2.25

Large Red Wethersfield.

Large size, productive and a good keeper. Pkt. Oz. ¼lb. 1b. 5 .20 .60 2.00

Extra Early Red Globe.

A very early variety of medium size and deep red color; an abundant producer and of good form and flavor, keeping well. 5 .20 .60 2.00

Large Red Wethersfield

Onion Sets should be planted near the surface as early in the spring as the ground will permit, in drills about twelve inches apart and four inches in the rows. They produce a very early and profitable crop.

Onion Sets ordered by mail are subject to an extra charge of ten cents a quart for postage.

	Per Qt.	Per Pk.
White Sets25	1.75
Yellow Sets20	1.50

	Per Qt.	Per Pk.
Potato Onion Sets20	1.00
Top Onion Sets25	1.50

For larger quantities prices will be given on application.

PARSLEY

One ounce to one hundred and fifty feet of drill.

Parsley requires rich, mellow soil; sow thickly in drills, one foot apart, and half an inch deep. As the seed germinates slowly, it is best to soak it for a few hours in tepid water before sowing. For winter use, protect it in a glass frame or light cellar.

	Pkt.	Oz.	¼lb.
Double Curled	5	.10	.25

PARSNIP

One ounce for two hundred feet of drill; five pounds to the acre.

Abbott's Improved Parsnip

Sow as early in the spring as the weather will admit, in drills 15 inches apart, covering half an inch deep, when well up thin out to five or six inches apart in the rows. Unlike carrots, they are improved by frost, and it is usual to take up in the fall a certain quantity for winter use, leaving the rest in the ground until spring, to be dug as required.

Abbott's Improved, or Long Smooth.

Smooth and quite large; one of the best	Pkt.	Oz.	¼lb.	1b.
	5	.10	.25	.75

PEAS

One quart to seventy-five feet of drill; two to three bushels to the acre.

Peas for an early crop should be sown as soon as the ground is in working condition. The soil for their reception should be light, dry and well sheltered. Mild manure, such as leaf mould, has a beneficial effect; but for many of the varieties, the soil cannot be too rich.

Double Curled Parsley

For general crop the ground should be well manured the previous year which causes them to yield more abundantly. When grown as a market crop, peas are never staked, and are sown in single rows, two or three inches deep, and from two to three feet apart, according to the variety or strength of the soil. When grown in small quantities for private use, they are generally sown in double rows, six or eight inches apart, and the tall varieties staked up by brush.

Peas ordered sent by mail are subject to an extra charge of fifteen cents per quart and eight cents per pint for postage. Pints furnished at quart rates.

EXTRA EARLY VARIETIES

Sutton's Excelsior. (See page 2).

Gradus or Prosperity. (See page 4).

Thomas Laxton. A new, early wrinkled variety of great merit.

Vine three to three and one-half feet high, similar to that of Gradus, but darker in color, hardier and more productive. Pods large and long, similar to, but larger than those of the Champion of England, and as uniformly well filled. The green peas are very large, fine colored and unsurpassed in quality. This pea has only to be known to become one of the most popular sort for the market and home garden, as it is one of the very best varieties yet produced

Qt.	Pk.	Bu.
.30	2.00	7.50

Cleveland's Eclipse. The earliest and most productive pea as compared with the hitherto earliest known pea on record. Grows about two feet high, seed green wrinkled. Smaller than the American Wonder,

Gradus or Prosperity Pea

Thomas Laxton Pea

	Qt.	Pk.	Bu.
the pods of which it resembles. Pods true American Wonder in shape and size. A most desirable sort for canners, market gardeners or private family use30	2.00	7.00
Cleveland's Alaska. A very early variety, smooth, blue, prolific and sweet. Height two feet; very desirable for early market gardening20	1.50	5.50
Nott's Excelsior. One of the most valuable of all the wrinkled dwarf peas. As early as the American Wonder, while the pods are larger, fully as well filled, and there are more of them. It grows a half taller than the American Wonder, and is a much heavier cropper25	1.75	6.50
Bliss' American Wonder. One of the earliest and best known wrinkled dwarf varieties, grows about nine inches high, and is covered with well filled pods25	1.75	6.50
Premium Gem. A dwarf, prolific, green, wrinkled marrow, very early; about nine inches high25	1.75	6.00
Laxton's Alpha. A very early wrinkled sort. Very prolific bearer, of fine quality, pods being large and well filled.....	.25	1.75	6.00

SECOND EARLY VARIETIES

Dwarf Telephone. A new variety with dwarf vines, bearing large, handsome pods, with peas of highest quality, without the long vines of the Telephone, and regular and uniform in growth. Height eighteen inches, stocky, healthy and vigorous, with almost no tendency to sport, and from five to seven days earlier than the Stratagem. Pods long, remarkably well filled, and of good lasting quality for market purposes. Peas of large size, tender and of delicious flavor	Crop a failure.		
Pride of the Market. Grows from eighteen inches to two feet high, and bears grand pods, well filled with large and finely flavored peas. Its robust constitution, enormous productiveness and superior appearance, insure its acceptance as a market favorite25	1.75	6.50
Bliss' Everbearing. Fine wrinkled marrow; pods three to four inches long, well filled with large peas; grows about two feet high25	1.75	6.50
Heroine. Grows about two and one-half feet high. A wrinkled variety of robust growth. It produces abundantly, long, pointed, well-filled pods, which contain from eight to nine fine, large peas25	1.75	6.00

FOR GENERAL CROP

Admiral Dewey. A new variety, and is, without exception, the largest podded and best yielding pea yet introduced. The pods sometimes measure six inches and are very plump and well filled with eleven to twelve very tender, large peas of excellent flavor. The foliage, vine and pod are of a dark, rich green, and are remarkably vigorous and healthy; height about three and one-half feet.....	.30	2.00	7.50
Dark Podded Telephone. This new variety is a great improvement on the Carter's Telephone, both for purity and uniformity, showing no tendency to small late pods. It grows to a height of about four feet with a strong, healthy vine, bearing extremely large, dark green pods, which contain			

large peas of the very finest quality. For fancy market garden trade, it has no equal as it is not only very attractive in appearance, but of the finest quality

	Qt.	Pk.	Bu.
	.30	2.00	7.50

Improved Telephone. A wrinkled variety of superior quality. It produces an abundance of large handsome pods, filled with immense peas, which are tender, sweet and of excellent flavor; grows about three feet high

	.30	2.00	7.00
--	-----	------	------

Long Island Mammoth. Also called **Telegraph.** A tall growing late sort, bearing very large handsome pods, well filled. The peas are large and not so wrinkled as many of the large late varieties; of excellent quality and flavor

	.30	2.00	7.00
--	-----	------	------

Dark Podded Telephone Peas

	Qt.	Pk.	Bu.
	.30	2.00	7.00

Duke of Albany, or American Champion. One of the best large podded late varieties. Very prolific. The vines are strong and vigorous, growing to the height of four feet, the pods are large, dark green and well filled with large, tender peas of delicious flavor

	.30	2.00	7.50
--	-----	------	------

Improved Stratagem. A dwarf wrinkled pea of branching habit. The pods are of immense size, very uniformly filled with very dark green peas of the finest quality; an immense cropper. Grows about two feet high

	.30	2.00	7.00
--	-----	------	------

Champion of England.
Universally admitted to be one of the richest and best flavored peas grown; grows five feet high; .25 1.75 6.00

Yorkshire Hero. A green wrinkled variety of branching habit; very productive and fine flavor; grows about two and one-half feet high25 1.75 6.00

Dwarf Champion. Has all the good qualities of the Champion of England, but does not grow so high; grows about two and one-half feet high25 1.75 6.50

White Marrowfat. One of the best late varieties; very productive15 .85 3.00

Black-eyed Marrowfat. An excellent field pea, hardy and productive15 .85 3.00

Canada Field. Extensively used for field culture60 2.25

Tall Gray Sugar. A very superior variety of the edible pod sort. Pods very tender and sweet.30 1.75 6.00

Duke of Albany Peas

Bell Pepper

PEPPER

One ounce will produce fifteen hundred plants.

Grown largely for pickles. Sow in the hot-bed early in April, and transplant into the open ground when the weather is favorable. The plants should be set in warm, mellow soil, in rows eighteen inches apart. The seed may also be sown in the open ground, when danger from frost is past, and the soil is dry and warm. Cultivate in the usual manner and the crop will be fit for use early in September.

Large Bell. Large and of mild flavor Pkt. Oz. 5 .30

SEED POTATOES

Gold Coin. (See page 1).

Early Dew Drop. (See page 1).

Irish Cobbler. We have found this potato to be one of the most reliable, extra early potatoes. In ripening it seems to be more uniform than any other sort. Every hill seems to ripen at the same time. The potatoes in form are oval and round. They grow very smooth, cream white, with few and shallow eyes. The quality for early table use is not excelled by any early variety. It keeps perfectly through the winter until planting time in the spring and it is never out of season for the table. Considering its earliness, yield, fine quality and handsome appearance, Irish Cobbler is one of the best of all early potatoes

Irish Cobbler Potatoes

		Bbl. of 165 lbs.
Pk.	Bu.	
	.35	1.25 3.25

Harmony Beauty Potatoes

All grown in one hill weight 5 3-4 lbs.

Harmony Beauty. This potato originated from the seed of a potato ball in Somerset county, Maine.

It is the favorite market potato of Bangor, having the preference over all other varieties wherever once used, and conceded by growers and consumers to be the best potato grown. It always brings a better price than any other in our market.

It is a prolific cropper and remarkably free from rot, and about two weeks earlier than the Early Rose.

		Bbl. of 165 lbs.
Pk.	Bu.	
	.35	1.25 3.25

In appearance it has a russet, pinkish skin, a little lighter in color than the Early Rose, and is of more oval shape. Flesh white and mealy

Green Mountain. A late variety of flat, oval form; white skinned, very smooth and handsome. One of the best yielders, free from blight, and rot, keeps well, and is never out of season for the table

Mills' Pride. A new variety of potato grown by us for the first time last season. It has a white skin; very white flesh and is of oval flat form. An immense cropper giving us the biggest yield last season of any potato we have ever grown. From seven bushels of seed planted on a little less than half an acre, rows three feet apart and hills twelve inches apart in

the row, we harvested two hundred and four bushels of selected seed potatoes, with between twenty-five and thirty bushels of small potatoes and culls that were not fit to put into seed stock. It is a very vigorous grower with large, healthy tops that stand up well 40 1.40 3.50

Pk. Bu. Bbl. of

PUMPKIN

One pound will plant two hundred and fifty hills. Chiefly used for agricultural purposes. Same cultivation as for cucumbers and melons.

Sugar Pumpkin

Large Yellow. Large size, good for cooking	Pkt.	Pt.	Qt.
	5	.10	.20
Sugar. Fine grained, sweet and prolific	Pkt.	¼lb.	lb.
	5	.25	.80

RADISH

One ounce to one hundred feet of drill.

Radishes thrive best in a light, rich, sandy loam; heavy or clayey soils not only delay their maturity, but produce crops much inferior, both in appearance and flavor. For a successive supply, sow from the middle of March until September, at intervals of two or three weeks. For an early supply they may be sown in a hot-bed in February.

Vick's Early Scarlet Globe Radish. This is a slightly olive-shaped variety of a rich, bright scarlet color, with white, tender flesh. It is fit to pull as early as any known variety and is especially recommended, to market gardeners whose market demands a large, first, early forcing variety

Pkt.	Oz.	¼lb.	lb.
5	.15	.40	1.25

Long Scarlet Short Top. Very long and crisp 5 .10 .25 .75

Early Scarlet Turnip. Round, scarlet, small, mild and crisp 5 .10 .25 .75

Lady Finger. Long, slender, and of a beautiful snow white. It is of rapid growth, remarkably crisp, brittle and tender. Quality desirable for the market or home garden 5 .10 .25 .75

White Pearl Radish

White Pearl Radish.

Seventeen days from planting to the table. The quickest on record. Pearly white, globe shaped, small top; quality unparalleled; very sweet tender and crisp. Equally adapted for forcing or growing out of doors

5	.20	.50	1.50
---	-----	-----	------

French Breakfast. A favorite oval-shaped, bright scarlet Radish, with white tip; fine for either open ground or forcing 5 .10 .25 .75

SPINACH

Long Standing Spinach

One ounce to one hundred feet of drill. Sow in early spring, in drills a foot apart, every two weeks for a succession; and as it grows, thin out for use. For fall use, sow in August, and for winter crop in September, Cover that which is left out over winter with straw or leaves, after the weather becomes quite cold.

Victoria. A new variety with very thick, dark green leaves, which spread out flat on the ground. It is a long-standing variety and very hardy	Pkt.	Oz.	¼lb.	lb.
	5	.10	.20	.50
Large New Round Thick Leaved. Has very large and thick leaves	5	.10	.15	.40
Long Standing. An improved round seeded strain of excellent merit, having all the good qualities of the ordinary sorts, and continuing in condition for use much longer. The leaves are smooth and very dark, rich green. Very popular with market gardeners	5	.10	.15	.40
New Zealand. This sort is grown to supply the place of the ordinary Spinach during the hottest months of the year, or in dry, arid localities where the ordinary Spinach does badly. Has a luxuriant growth of succulent leaves which can be cut through the entire summer,	5	.10	.30	1.00

SQUASH

One ounce of summer varieties will sow forty hills; one ounce of winter varieties will sow fifteen hills; four pounds per acre.

Turban Squash

Any good rich soil is adapted to the growth of the Squash. They only thrive well in a warm temperature, as all the varieties are tender annuals; and the seed should not be sown in spring until all danger from the frost is past, and the ground is warm and thoroughly settled. The hills for bush varieties should be about six feet apart, for running sorts, ten feet. Leave two plants to a hill and keep covered in the early stages with plaster.

Summer Crookneck. Early, productive and of good quality; fruit bright yellow	Pkt.	Oz.	¼lb.	lb.
	5	.10	.25	.75
White Bush Scalloped. An early flat, scalloped shaped variety; very productive	5	.10	.25	.75
Turban. Early fall variety; orange-yellow flesh of good flavor	5	.15	.35	1.00
Hubbard. One of the most desirable varieties in cultivation; color, dark green; flesh, bright orange-yellow; fine grained, very dry, sweet and rich flavored; keeps perfectly good throughout the winter	5	.10	.25	.80

Warted Hubbard. An improvement over the old-fashioned Hubbard, same shape, large size, dark green, almost black, distinguished by a dense covering of knots, which justifies the name of "warted."

Very thick flesh, first-class quality and a good keeper 5 .10 .30 1.00

Warted Hubbard

Boston Marrow. A fall and winter variety, very popular in the Boston market; of oval form; skin thin; when ripe, bright orange; an excellent keeper and of superior quality

Pkt. Oz. ¼lb. 1b.
5 .10 .25 .80

Early Prolific Marrow. Earlier than the Boston Marrow. Very productive and grows to weigh from seven to twenty pounds. Its color is most attractive, a brilliant orange red. Quality excellent when mature, and a good keeper,

5 .10 .25 .80

Delicious. A new variety of winter

squash, one of the best ever introduced. Color of skin is green, with an occasional blue specimen. About the same size as the Hubbard. Flesh very thick and of a dark orange color, very fine grain, exceedingly rich and of elegant flavor. It can be used for either fall or winter use, but does not acquire its best qualities until winter. It is without question the sweetest and richest flavored squash grown. Per pkt. 5 cents, per oz. 10 cents, per ¼ lb. 30 cents, per lb. \$1.00.

Delicious Squash

TOBACCO SEED

Connecticut Seed Leaf. Best adapted to the climate of the northern states, as it is more hardy and endures the cold better than the tender varieties grown south 5 .30 1.00

TOMATO

One ounce will produce fifteen hundred plants. This vegetable is one of the most important of all garden products. They thrive best in a warm, light, rich soil. For early plants, sow about the first week in March in a hot-bed; or in boxes or pots in a warm window. When the plants are about two inches high, set out in boxes, three inches deep, four inches apart, in the same temperature, or pot singly. If

SUNFLOWER

Large Russian. Per Pound, 15 cents

Crimson Cushion Tomato

again transplanted before setting out, the plants will be still more stocky. Set out in the open ground about the first of June, four feet apart each way, using a shovelful of rotted manure in each hill. Keep well sheltered and watered until they are established, after which let the fruit have plenty of sun.

Sparks' Earliana. (See page 4).

Early Freedom. The plant is medium in size, presenting no peculiarities of foliage or habit. The fruit is borne mainly in clusters, perfectly round, having no sign of concave at the base. Of a bright, dazzling shade of scarlet. The flesh is remarkably solid, having but few seeds. The flavor is perfect, absolutely free from any acidity. Undoubtedly the most prolific of all early tomatoes, and equal in size to the largest of any early sort put on the market

	Pkt.	Oz.	¼lb.
Livingston's Beauty. Color, very glossy crimson; grows in clusters of four or five fruits; large and solid	5	.25	.75
Livingston's Favorite. Productive; good flavor; few seeds; flesh solid; smooth and handsome	5	.20	.60
Livingston's Perfection. Early, large, smooth and solid, blood-red color	5	.25	.75
Trophy. Very large, solid and of fair quality	5	.20	.60
Atlantic Prize. This tomato is the result of many years' careful selection by one of the most successful tomato-growers of New Jersey. It is very early, fruit is of good size, round, very solid, and of excellent quality	5	.25	.75
Dwarf Champion. This is an early variety, which forms very stout, strong plants, about two feet high. The branches are short, making a bushy plant that stands quite erect without stakes. Fruit, smooth, medium sized, fairly solid, but has no hard core, and is of good flavor	5	.25	.75
Crimson Cushion. For so large a tomato it is very early, very smooth, of a bright, scarlet crimson. Ripens almost completely to the stem end. The flesh is so firm and solid that it requires four times the quantity to produce a pound of seed than it does of ordinary sorts. Without doubt the most prolific of any variety yet brought out. A grand tomato for slicing or canning	5	.25	.75
New Stone. Of a bright, scarlet color. Very large and very smooth; ripening evenly to the stem without a crack; exceedingly solid and firm-fleshed (as its name indicates); is an excellent shipper; quality the very best; a good keeper; without hard core and not subject to rot. A great yielder	5	.25	.75

TURNIP

One ounce for one hundred and fifty feet of drill; one to two pounds in drills for an acre.

Turnips do best in highly enriched light, sandy or gravelly soil; sow the earliest varieties as soon as the ground can be worked in the spring, in drills twelve to eighteen inches apart. For a continuous supply through the season, sowings should be made every two weeks until the last of July; from which time until the middle of August the principal sowings are made for the fall and winter use. Swedish or Ruta Baga turnips are largely grown for a farm crop, as well as for the table; make sowings from the tenth of

Purple Top Strap Leaf Turnip

June until the first of July, in drills two to three feet apart, and the plants when well up should be thinned to ten inches apart. To keep the roots fresh during the winter they may be placed in a cool, dry cellar and buried in dry sand.

- Golden Ball or Orange Jelly.** A rapid grower of excellent flavor; bright yellow, good keeper, and a superior table variety Pkt. 2oz. ¼lb. 1b.
 5 .10 .20 .60
- Purple Top Strap Leaf.** Best variety for main crop; equally good for spring or fall sowings; white flesh... 5 .10 .15 .50
- White Egg.** Oval, early, handsome and sweet 5 .10 .15 .50

**RUTA BAGA OR SWEDE
TURNIP**

- Carter's Imperial Swede.** A most excellent sort for either table use or feeding stock. Flesh yellow, solid, sweet and rich. Purple top, hardy and heavy yielder Pkt. 2oz. ¼lb. 1b.
 5 .10 .15 .50
- American Purple Top.** Flesh solid, yellow, sweet and of fine flavor. An excellent keeper for winter use 5 .10 .20 .60
- Skirving's Purple Top.** A very popular variety. Large, yellow, firm flesh, sweet and a good keeper.. 5 .10 .20 .60

Dwarf Nasturtium

vigorously and flowering freely all summer and fall; excellent for massing and ribboning, doing well even in poor soil. Hardy annuals, one foot.

Dwarf, Mixed. Fine colors 5 .10 1.00

SWEET PEAS

Very lovely, beautiful, fragrant, free blooming, climbing plants. Sweet peas are grown very extensively by florists and gardeners for cut flowers, and when placed in water will last many days, and their sweet perfume delights many.

Supported by common pea sticks they form admirable screens for protecting tender plants and excluding unsightly objects. They are invaluable for trailing and trellis work and covering fences, etc.

The more the flowers are cut, the more freely they will bloom.

FLOWER SEEDS

NASTURTIUM—Tall

Elegant profuse flowering plants for verandas, trellises, etc. The seed pods can be gathered while green and tender, for pickling. Hardy annuals.

Tall Mixed. Fine colors. ^{Pkt. Oz. lb.} 5 .10 1.00

NASTURTIUM—Dwarf

The dwarf varieties are among our most popular plants, standing any amount of heat and drought, growing

ENGLISH LAWN FERTILIZER

An Odorless Chemical Fertilizer For Lawns, Flower Beds and Kitchen Gardens.

This is a high-grade chemical fertilizer, especially prepared to promote the vigorous and healthy growth of luxuriant grass, enabling it to withstand rough usage and the protracted heat of summer.

Being free from weed seeds, and odorless, it is far superior to unsightly and strong smelling stable dressing for use on lawns and tennis courts.

EXTRA SELECTED FARM SEEDS

At market prices at time order is received. All inquiries for quotations will be promptly answered.

Orchard Grass

Kentucky Blue Grass. An excellent variety for pasture. Also valuable for lawns when mixed with other grasses; 14 lbs. to the bushel.

Awnless Brome Grass—(*Bromus Inermis*)

An erect growing perennial that attains a height of from three to five feet.

It is especially recommended for dry and arid soils where the more delicate grasses will not grow. Its remarkable drought resisting qualities make it very valuable for dry situations, while its extreme hardiness enables it to withstand our coldest winters without serious injury. The rootstalks of this variety spread rapidly under ground, sending up new shoots, and thus form a close, dense sod. On this account it should not be sown except where a permanent grass crop is desired; 20 lbs. to the bushel.

GRASS SEEDS

Timothy or Herd's Grass. The best grass for hay; 45 lbs. to the bushel.

Fancy Red Top. Clear seed. A valuable grass and extensively cultivated.

Rhode Island Bent. Very fine lawn grass; 10 lbs. to the bushel.

Orchard Grass. Valuable on all dry soils, very valuable as a pasture grass; 14 lbs. to the bushel.

Fowl Meadow Grass. Grows tall and thick, succeeding best on low, moist land; 10 lbs. to the bushel.

Canada Blue Grass. A very hardy variety of Blue Grass. Excellent for pasture and especially adapted to dry, sandy, thin soils. Does not make as fine a sod as the Kentucky Blue Grass, but will stand rougher usage.

MILLETS**Hungarian Grass**

been grown from a single seed. Hay and fodder are very nutritious and much liked by all kinds of stock. Sow in June and July, one peck to the acre; 48 lbs. to the bushel.

Millets should be sown in June and July, and are annual forage plants of thick growth, valuable for green fodder or hay, maturing in fifty to seventy-five days from the time the seed germinates, producing an abundant yield of forage, relished by all kinds of stock. They must be cut while in blossom to make good hay. At market prices at time order is received. All inquiries for quotations will be promptly answered.

Hungarian Grass. Early; grows two to three feet high; abundant foliage; withstands drought and yields well on light soils; 48 lbs. to the bushel.

Golden Millet. Requires a dry, light, rich soil, and grows two and a half to four feet high, with a fine bulk of stalks and leaves, and is excellent for foraging; 48 lbs. to the bushel.

New Siberian Millet. A new and wonderfully productive forage plant from Russia, which has given excellent results in the United States. It is extremely hardy and about two weeks earlier than German Millet, growing about four feet in height. Its stooling properties are remarkable, as high as 41 stalks having

CLOVERS

Prices subject to market changes.

There are no plants so valuable for fertilizers as the clovers. They have the faculty for absorbing nitrogen from the air, and also of rendering available much of the inert plant food of the soil. Their long, powerful tap roots penetrate to a great depth, loosen the soil, admit air, and by their decay add immensely to the fertility of the soil. The seed may be sown in fall or spring; the best results will come from sowing in the spring, and is often sown on the late snows of April.

Medium Red Clover. **Pea Vine or Mammoth Clover.** **Alsike Clover.**

White Dutch Clover. Valuable for pasture and for lawns.

Scarlet or Crimson Clover. This variety is fine for soiling cattle; has a beautiful blossom.

Alfalfa or Lucerne Clover. Very productive; requires deep soil.

DWARF ESSEX RAPE

This is very valuable for sheep pasture. It can be sown in May, and will be ready for pasturing in July or August; or it may be sown in June or even

up to the middle of July, and yet furnish, under reasonably favorable circumstances, a large amount of pasture and fodder. It is very suitable for sowing on land that an early crop of potatoes has been taken off. In drills, about four pounds to the acre; broadcast, eight pounds to the acre. Pound, 10 cts.; 12 pounds for \$1.00.

Soja or Soy Beans

SOJA OR SOY BEAN

Very valuable for fertilizing and enriching the soil; also used for pasturing, feeding as green fodder, and for silo purposes. Sow broadcast in May or June, at the rate of one bushel to the acre, or they may be planted in drills three feet apart and one foot between plants.

At market prices time order is received.

SAND, OR WINTER VETCH

One of the pea vine class of plants. Better than other fodder crops on poor, dry, sandy soil, while in good soil it makes a rank growth of four to five feet. Perfectly hardy all over the United States, stands drought well and remains green all winter. It is the earliest of all spring fodder crops. Sow for spring use in August with $\frac{1}{2}$ bushel of winter rye or oats, or in spring with $\frac{1}{2}$ bushel of oats, rye or barley. It is exceedingly nutritious, eaten with relish, and may be fed with safety to all kinds of stock. Sow at the rate of one bushel per acre.

At market prices time order is received. All inquiries for quotations will be promptly answered.

EARLY BLACK EYE COW PEAS

The great soil improver. Green crops plowed under are one of the best and cheapest ways of improving the soil. For this purpose the Cow Peas are the most popular, especially for medium and light soil. They should be sown in May or June, at the rate of one and one-half bushels to the acre, and plowed under as soon as they have attained their growth. There is no surer or cheaper means of improving poor soil than by sowing Cow Peas. In its capacity as a nitrogen gatherer, its growth largely enables the farmer to dispense with the use of nitrogen or ammoniated fertilizers.

Cow Peas are also valuable as a forage crop.

At market prices time order is received.

Sand, or Winter Vetch

JAPANESE BARNYARD MILLET

This wonderful and valuable new forage plant was introduced into this country by Prof. Brooks, of the Massachusetts Agricultural Experiment Station. It has proven an enormous yielder in all sections of the United States; hay and fodder of most excellent quality on any soil, yielding 8 to 10 tons per acre and growing from 5 to 7 feet in height.

Cattle and horses eat it greedily.

The accompanying cut is from a photograph of a bunch that was raised on our farm. We found it very satisfactory in every way.

Sow in May and June broadcast, 10 to 15 lbs. per acre (it stools remarkably), or in drills, 8 lbs. per acre.

Price, per pound, 9c.

Per 13 pounds, \$1.00.

If sent by mail, add eight cents per pound for postage.

GRAINS

Prices subject to market changes. All inquiries for quotations will be promptly answered.

Wheat, Spring Rye, Winter Rye, Barley, Oats, Silver Hull Buckwheat, Common Buckwheat, Indian Wheat or Rough Hulled Buckwheat, White Hulless Barley.

All our grains are selected expressly for seed, and are strictly pure and true. All inquiries for quotations for grass seeds, grains, etc., will be promptly answered and samples sent by mail when desired.

Dunning's Lawn Grass Seed

This is a mixture of the different varieties of grass seed, which is best suited to this climate for lawns, grass plots, cemetery lots, etc., and selected with a view of suiting all soils and situations, and whether used in pastures or lawns, has invariably produced the best results. It must be remembered, however, that much of the fine appearance of our lawns depends upon regularity in mowing. If they are left too long in spring before the operation is begun, or if allowed to grow strong in summer, and, more especially, if not closely mown at the latest period in autumn, they become coarse, the stronger grass overgrowing the weaker and the best, the smoothness of the surface being destroyed, and ultimately the whole becoming patchy and unsightly. All lawns should also be regularly rolled and, unless the subsoil be a porous, alluvial gravel, should also be thoroughly drained at their formation. A drain should be carried along at

the bottom of each terrace slope, so that they may at all times be comfortable to walk upon. The seed may be sown in spring or fall, but, if sown in hot weather, a slight sowing of oats, which vegetates quickly among the grass, will serve to protect the springing grass. For forming new lawns, four bushels are required per acre, or about one quart to each square rod of land, which should be regularly and evenly distributed. Sixteen pounds to the bushel.

A liberal quantity of seed should always be used to insure the best results. Per pound, 25 cents. If sent by mail, add eight cents per pound for postage.

Per bushel of 20 lbs., by Freight or Express, \$4.50.

For English Lawn Fertilizer, see page 33.

Specimen plants characteristic of uninoculated and inoculated field of Alfalfa, on farm near Bynum, Hartford County, Maryland. The uninoculated plants turning yellow, though sown on ground richer and better than the inoculated field. Gain from inoculation with Nitro-Culture nearly 500 per cent. by weight.

NITRO-CULTURE

Supply Nitrogen to the soil by the use of Nitro-Culture

It is well known that nitrogen is the most expensive of fertilizing elements. Plants need nitrogen and cannot grow without it.

Nitro-Culture will supply legumes with nitrogen, thereby insuring a good crop.

Send for catalogue of Nitro-Culture, which more fully describes this wonderful discovery.

For All General Farming

are, without doubt, the best fertilizers in the world for producing the largest possible crops of Grass, Grain and Vegetables in the shortest time. The Bradley Fertilizer Co. manufacture fertilizers of **all Grades** and for **all Crops** and being the **largest manufacturers in the world** their facilities for furnishing all kinds of fertilizers and agricultural chemicals at the lowest prices are absolutely unequalled.

A full stock of the following standard fertilizers constantly on hand:

Bradley's X L Superphosphate

Bradley's Potato Fertilizer

Bradley's Potato Manure

Bradley's Corn Phosphate

Bradley's Eureka Seeding-down Manure

Bradley's Complete Manure with 10% Potash

Bradley's Complete Manure for Potatoes and Vegetables

For Lawn Fertilizer. (See page 33).

Send to us for finely illustrated pamphlets, describing all of their brands, and let us quote you prices on these unequalled fertilizers, before purchasing elsewhere.

Agricultural Lime

Especially prepared for agricultural purposes, and, being finely ground, it can be used in any broadcast sower.

Many plants, such as beets, spinach, lettuce, onions, parsnips, cabbages, cucumbers, peas, beans, turnips, carrots, corn and all grains, show a decided increase and are greatly benefited by the use of lime, as it corrects all acidity of the soil, sweetening it, and freeing it from impurities.

Lime properly applied at certain intervals will be found a most perfect renovator, one that can be relied upon. For the ordinary piece of land that requires lime it will be found that once in the rotation of crops, or, say once in four years, is as often as lime should be applied. It will hold the land in its proper condition for that length of time.

Put up in 100-pound bags.

Price per ton.....\$10.00

Send for Illustrated Catalogue.

Bradley's Superior Meat Meal

Is beyond question the best food ever manufactured for Hens, Turkeys and Ducks. Its continual use by the largest Poultry Raisers proves it is unequalled for quickly growing large-sized birds of fine flavor, and for producing large yields of superior quality eggs.

Sterlingworth Poultry Charcoal

PREPARED ESPECIALLY FOR POULTRYMEN

We have had this Charcoal put up for us to meet the demand for an evenly graded charcoal, free from dust and useless dirt, and offer it as the best Poultry Charcoal manufactured.

This Charcoal should not be confounded with the ordinary commercial charcoal which is not evenly graded, generally contains large quantities of dust and is not always free from dangerous poisons.

Charcoal aids digestion, promotes health, and is generally corrective of many of the poultry ills to which fowls are heir. A little charcoal goes a long way and is worth its weight in gold. No poultryman can afford to be without it. It is put up in three sizes—Fine: For Brooder Chicks, Dry Chick Mixtures and Mash Foods. Medium: For Half Grown Fowls, Pigeons, etc. Coarse: For Full Grown Fowls, Geese, Turkeys, etc.

Prices: Packed in two-pound cartons printed with directions for feeding, 15 cents each. Put up in 50-pound sacks, \$1.00 each

Standard Cyphers Insurable Incubators and Brooders for 1910

Standard Cyphers Incubators, of all sizes, for 1910, are built in compliance with detailed specifications adopted by the National Board of Fire Underwriters in the form of "Rules and Requirements," and every 1910-Pattern Incubator and Brooder manufactured by Cyphers Incubator Company, Buffalo, N. Y., will be regularly inspected by the Underwriters Laboratories (Inc.), under the direction of the National Board of Fire Underwriters, and will bear the official label of the Associated Standard Fire Insurance Companies doing business in the United States and Canada.

The Celebrated, Genuine, Patented Cyphers Non-Moisture Incubators, of which we are authorized agents, are guaranteed by the manufacturers as follows: To hatch a larger percentage of fertile eggs; to produce larger and more vigorous chicks or ducklings; to operate with less oil and at less expense than any other make of incubator; to require no supplied moisture and to be self-ventilating; to have a more sensitive, accurate and durable regulator than any other make and to maintain a more even temperature; to be more strictly automatic in action and to give better results in your hands than any other make of incubator in the world.

Standard Cyphers Incubators are used on more Government Experiment Farms, on more successful, large commercial poultry plants, and by more successful fanciers, than all other incubators combined.

CYPHERS BROODERS FOR 1910

Fire-Proofed and Insurable

Complete line for outdoor and indoor use. Employ top-heat and are self-ventilating and self-regulating. Are built on colony house plan (except indoor type); are substantially made, are fire-proofed, and every one bears the fire insurance underwriters "Inspected Brooder" label.

THE CYPHERS STYLE A 1910 OUTDOOR BROODER

This was formerly known as the Storm King, is better made than its predecessor and is recommended for use of poultry raisers who feel that they do not wish to invest in the larger sized and more costly three-apartment outdoor brooders. This brooder is equipped with the Cyphers Fire-Proof Brooder Heater and Standard Adaptable Hover. It employs top-heat exclusively, thus giving the chicks free use of all space underneath the hover. It is self-ventilating and self-regulating.

Price: Style A. 1910 Outdoor Brooder..\$12.50

**CYPHERS STYLE B 1910
OUTDOOR BROODER**

This was formerly known as Style A. Is a three-apartment brooder, and has the same style of heater as the Style A. 1910 Brooder and is twice as large.

Price: Style B. 1910 Outdoor Brooder, \$16.50.

**CYPHERS STYLE D 1910 INDOOR
BROODER**

This brooder is designed to be used in dwellings, stables, poultry houses, etc. Is practically the same in all respects as the Style A. 1910 Outdoor type, except that it is of more convenient shape for indoor use.

Price: Style D. 1910 Indoor Brooder.....\$11.50

**CYPHERS STYLE A 1908
OUTDOOR BROODER**

This brooder is 36x72 inches in size, has three apartments; one, under the hover, averaging 90 degrees in temperature; one outside the hover, averaging 80 to 85 degrees and a separate apartment averaging 70 degrees. This brooder is heated by a Cypfers Insulated Brooder Stove. It is wind-proof and storm-proof, and will last many years with reasonable care.

Price: Style A. 1908 Outdoor Brooder, \$15.00

**CYPHERS STORM KING
1908 OUTDOOR BROODER**

A practical outdoor brooder especially constructed to meet the demand for a practical outdoor brooder at a lower price than the Style A. Brooder. The 1908 Brooder has a floor space of 3x3 feet and a capacity of 75 chicks. It has the brooding apartment of the Style A. Brooder without the exercising apartment.

Price: Storm King 1908 Brooder.....\$10.00

**Cypfers Improved Hygienic
1908 Indoor Brooder**

Cypfers Hygienic Indoor Brooder has been on the market several years and has given the best of satisfaction. We offer this brooder with the opinion that it is the best device in the form of an individual indoor brooder thus far conceived and invented for the safe and healthful rearing of chicks. It is strictly Hygienic, and reliable in operation. This brooder is composed of three apartments allowing the chicks to seek whatever temperature suits them best. The outside run is hinged to the brooder proper, so as to drop to the floor, in which position it serves as an incline between the brooder and the floor.

Price: Improved Hygienic 1908 Brooder, \$9.00.

CYPHERS SAFETY BROODER STOVE

These stoves positively have no equal. They furnish twice as much heat as the ordinary brooder lamp. The safety water pan on the Cyphers Safety Brooder Stove holds nearly a quart of water and extends out over the entire surface of the oil bowl, removing all danger of overheating the oil. Just the stove for use in home-made brooders. Height, 7½ inches; greatest width, 10½ inches.

Price of stove complete and ready for use, \$1.75.

CYPHERS INSULATED BROODER STOVE

For those desiring to buy brooder lamps, or stoves, we offer the Cyphers Improved Insulated Brooder stove. This new stove does away with the water jacket or reservoir required on brooder stoves usually sold for the purpose. The insulating plate of heavy galvanized iron is so placed between the burner and the oil bowl that all heat of the flame is deflected away from the oil reservoir, so that the oil remains cool at all times. The stove has a seamless bottom, hence will not leak.

Price, each.....\$1.75.

THE ECLIPSE LEG BAND

No. 1 for Bantams and small Mediterraneans. **No. 2** for Mediterraneans. **No. 3** for American females. **No. 4** for American males, Asiatic females, small turkeys. **No. 5** for Asiatic males and turkeys.

The band is light and neat and will stay on. They are so made that when properly adjusted they cannot come off. They are made from polished aluminum and will not tarnish. Those who prefer a flat band will find them superior to anything on the market, while the price places them within the reach of everybody.

Prices: 15c per 12; 25c per 25; 45c per 50; 75c per 100.

DOUBLE CLINCH LEG BANDS

Made in polished aluminum and are provided with a strong and secure fastener. Made in five sizes. See table of sizes given under Eclipse Leg Bands.

Prices: 15c per 12; 25c per 25; 45c per 50; 75c per 100.

OVINAPHTHOL LICE KILLING NEST EGG

Our Ovinaphthol Lice Killing Nest Egg is a combined nest egg and lice killer. By simply using it in the nests in the same manner as an ordinary nest egg is used, laying hens are cleared of lice and mites and are able to occupy the nests with comfort. Being prepared with great care for this special purpose, they last a long time and always retain their effectiveness. The genuine nest eggs bear embossed on each egg the words, "Ovinaphthol Nest Egg."

Prices: Each, 10c; per dozen, 75c.

Cyphers Dry Food Hopper and Sanitary Shell and Grit Box

Price 75 Cents

These are made of heavy galvanized iron, practically indestructible and will last a life-time with ordinary usage. They are practical labor and food saving devices.

THE DRY FOOD HOPPER has two compartments—a large one for grain mixtures, holding about six quarts, and a small one for beef scrap, holding about three quarts.

THE SANITARY GRIT AND SHELL BOX has three compartments for grit, oyster shells and charcoal. Can be used for dry food hopper where a small flock is kept.

Price 50 Cents

Cyphers Galvanized Iron Drinking Fountains

Cyphers Wall Fountain

One of the most important appliances for use in the poultry yard is a truly sanitary drinking vessel.

These fountains are made of the best galvanized iron and guaranteed to last many years with proper treatment.

NAPCREOL

A Concentrated Preventive of Disease, Guaranteed To Do the Work

Napereol is a highly concentrated, non-poisonous preparation which is made ready for immediate use by simply mixing with the required amount of water. **ONE GALLON OF NAPCREOL WILL MAKE 100 GALLONS OF DISINFECTANT.** It is invaluable for the disinfection of poultry houses, stables, dog kennels, toilets, sinks, cesspools, or any other place where a good germ and odor destroyer is needed.

PRICES

One quart cans, \$.50.
 Half gal. cans, \$.85. Gal. cans, \$1.50.

CYPHERS LICE PAINT

A Safe and Sure Liquid for

Killing All Insects Affecting Poultry or Stock

Cyphers Lice Paint is a liquid lice destroyer especially prepared for killing all insect parasites of poultry. It is also useful for killing all lice, mites and ticks affecting horses, cattle, sheep and hogs.

It is safe, and easy to use, and at the same time stronger than any other lice killer, as it is not diluted with cheap adulterations which would impair its effectiveness. It does the work and does it economically.

PRICES

1 qt. can. \$.35. 2 qt. can. \$.60. 1 gal. can. \$1.00.

CYPHERS ROUP CURE

This remedy is positively guaranteed by the manufacturers to cure roup in all its forms. It is simply put in water and the chick takes its own medicine. It prevents and cures cold and is unequalled for canker, especially in pigeons. No poultryman can afford to be without Cyphers Roup Cure.

PRICES

Small sample size.....25 cents. Medium size50 cents.

CYPHERS LICE POWDER

In offering Cyphers Lice Powder we present a powder that we believe to be stronger than any other preparation sold for the purpose. It is carefully compounded and contains no chemicals that will injure the fertility of the eggs or prove dangerous to newly hatched chicks. It will positively kill lice on poultry, cattle and horses; ticks on sheep and fleas on dogs.

PRICES

15 ounce package, 25c.....postpaid, 40c
48 ounce package, 50c.....postpaid, \$1.00

DUNNING'S LICE POWDER

This is a scientifically compounded powder for killing all forms of insect life on fowls, and is equally good for destroying lice on cattle and horses, ticks on sheep and fleas on dogs. It is different from many of the so-called Lice Powders on the market, inasmuch as instead of driving the lice from the fowl's body, it kills them. While it is sure death to all kinds of insect life generally afflicting fowls and animals, it is harmless when used according to the plainly printed directions on each package.

STERLINGWORTH DIARRHOEA REMEDY

A certain and guaranteed remedy for bowel trouble and white diarrhoea in young chickens and scours in fowls and pigeons

A positive cure and preventive for White Diarrhoea seems too good to be true for this scourge has driven more poultrymen out of business than any other disease. Millions of chickens die yearly from this trouble which could be saved if Sterlingworth Diarrhoea Remedy was used. Poultrymen should not wait until their chickens become diseased, but should use it as a preventive. It does not stunt the chicks or cause them to stop growing,

but aids them to become strong and healthy. It is used in the drinking water. The chickens and fowl take their own medicine.

It is sold under a positive guarantee to give satisfaction or purchase price is refunded.

Each package contains sufficient remedy for treating several flocks. Full directions on each package.

Price, per box, sufficient for several flocks, 50 cents.

CYPHERS INCUBATOR THERMOMETERS

These thermometers are thoroughly and expertly tested before leaving the factory.

Price, 60c each.

CYPHERS BROODER THERMOMETERS

Price, 50c each.

CYPHERS X-RAY EGG TESTER

Made of the best of block tin and designed to use on any hand lamp. Price, 25 cents each; by mail postpaid, 35 cents each.

CYPHERS POULTRY FOODS

Owing to fluctuations in the grain market, it will be impossible for us to catalogue any prices on these goods. We shall have a good stock of them on hand and shall be pleased to quote prices at any time.

CYPHERS CHICK FOOD

This is complete, scientifically compounded food for young chicks. It is a mixture of 11 different grains and seeds proportioned so as to meet all the needs of growing chicks, and to thoroughly nourish them. In compounding Cyphers Chick Food, the protein (or flesh and muscle forming element) is maintained high, the carbo-hydrates (or fat and heat forming elements) are reduced to their proper proportion and the ash (or mineral elements) is in sufficient amount to supply the needs of the rapidly growing bird. If chicks are to be developed into breeders, no other food is required for the first eight weeks.

Put up in 100-lb. bags. Price furnished on application.

Cyphers Developing Food

Cyphers Developing Food is a special food intended for properly maturing young chicks, after they are ready to be weaned from Chick Food, and to carry them along to the age when it is desirable to place before them the larger whole grains. When the chicks are from six to eight weeks old they are able to eat and exhibit a preference for larger particles of grain than are found in our Chick Food. Full directions for feeding are in every bag. Put up in 100-lb. sealed bags only, bearing manufacturer's trade-mark.

Prices furnished on application.

Cyphers Mealed Alfalfa

This is the best form of clover for use in mash food for small chicks, the meal being ground just coarse enough to give bulk to an otherwise soggy mash, and thus allowing the gastric juices to become mixed with the food and to assist in thoroughly digesting it. Mealed clover contains the entire food plant—nothing is removed.

Put up in 50-lb. bags. Prices furnished on application.

Cyphers Short Cut Alfalfa

Guaranteed 95 per cent. Pure Alfalfa. Alfalfa possesses from 14 to 17 per cent. protein. Protein is the most valuable and most expensive element in all foods.

Put up in 50-lb. bags. Prices furnished on application.

Cyphers Forcing Food

The mash food specially designed to promote rapid growth. Put up in 100-lb. bags. Prices furnished on application.

Cyphers Scratching Food

An ideal dry-grain mixture; affords variety and promotes exercise. Put up in 100-lb. bags. Prices furnished on application.

Cyphers Laying Food

A balanced ration, ready mixed for the daily mash. Put up in 100-lb. bags. Prices furnished on application.

GARANTOL

The Very Best and Cheapest Egg Preservative on the Market

Clean, fresh eggs properly preserved with Garantol keep fresh for a year and longer.

We sold Garantol for the first time last season. Out of all the people using it, we have not heard a complaint. Without an exception they all claim that eggs preserved in Garantol are fully equal to fresh laid eggs.

Send for descriptive circular and testimonials.

CYPHERS FULL-NEST EGG FOOD

A Meat Food Tonic Conditioner That Makes Hens Lay

Full-Nest Egg Food is the standard condition powder for all ages of poultry. Besides being an unexcelled egg producer, it is a concentrated meat food possessing tonic properties which promote good health and fine condition. It stimulates and invigorates, but unlike other tonic foods, it also builds up the system and keeps it up. Many condition powders tone up the bird's system for a while, only to let it drop back as soon as the use of the tonic is discontinued. Full-Nest Egg Food will help your birds through their molt, make the feathers develop normally and induce a high state of perfection in plumage. Hens begin laying sooner after molting where this egg food is used. Full-Nest Egg Food contains no injurious drugs or chemicals; it is safe and easy to use.

“Victory” Lawn Mower

This machine has Ball Bearings of the very highest grade which reduce the friction astonishingly and render it possible to use much wider machines than heretofore.

Triple gear entirely enclosed, so that no dirt or cut grass can find its way into the pinions and clog them.

The adjustments are the simplest, most perfect, and most positive.

These mowers are high speeded and have a four bladed reel, which leaves the lawn with a very smooth and velvety surface.

“SPIDER” LAWN MOWER

WITH BALL BEARINGS

The Spider Mower is light and strong, and glides over the lawn lightly, easily and almost noiselessly reminding you strongly, as it nips off the grass, of the vigorous action of the ferocious and cunning little insect whose name it bears. This machine has finely adjusted, high grade ball bearings, which greatly reduce the friction and render it possible to use much wider machines than heretofore with parallel bearings.

Has two pawls in each pinion, making the machine much more positive and durable. The reel is four bladed and high speeded, which leaves the lawn with a very smooth and velvety surface.

The Dunham Lawn Roller

**The Only Lawn Roller With Roller Bearings.
The Easiest Running Roller on the Market.**

The most essential tool for the care of a lawn is a roller. In the winter when the ground becomes frozen it expands, just as water does when it freezes. The thaw which follows the first warm days of spring allows the soil to settle back in its former position. But the sod, being much lighter than the soil, does not settle with the same rapidity. Large patches of grass roots in every lawn are thus left stranded in the air until after the growing season begins. The grass in these patches will die unless rolled down with a heavy roller as soon as the frost is out of the ground, so that the roots may again come into firm contact with the soil.

The proper use of a roller will make all the difference between a commonplace lawn and one of rare, velvety beauty.

Send for descriptive catalogue and prices.

The Champion Self-Feed Drag Saw Machine

LEADS ALL OTHERS.

Capacity 20 to 40 Cords Per Day with 2 to 4 Horses.

The Reason Why This Machine Will Please You

The operator can raise saw with one hand and throw self-feed in gear with the other, thus changing and setting for a new cut with no stopping of team or slowing of motion whatever. The self-feeding machine moves the log automatically along the carriage; while with an old style hand-feed machine the log must always be moved by hand.

Twenty feet of Log Carriage, Trucks, Rollers, Dogs, etc., are always furnished with this outfit.

Cuts faster, runs easier, wears better than any other Drag Saw machine ever made.

- No. 1 Self-feed Drag Saw machine, including Log Carriage, Trucks and all extras complete\$80.00, Weight 1,100 lbs.
- No. 2 Self-feed Drag Saw machine, including Log Carriage, Trucks and all extras complete\$90.00, Weight 1,200 lbs.

No. 1 Machine is recommended for all ordinary farm or timber work.

No. 2 Machine has extra heavy Shafts and Boxes, otherwise same as No. 1; is recommended where extra heavy work is required, or if machine is to be driven by steam-power.

Serrated Edge Corn Hooks

Made of specially selected spring steel and carefully tempered. One of the best tools for cutting corn ever put on the market. The serrated edge makes it cut very easy, and the correctly shaped handle makes it very convenient and easy to use.

Price50 cents.

Evans' Potato Planter

This is the most improved machine of its class on the market, being strictly up-to-date in every particular.

It is a force-feed, is positive in its action, and will drop potatoes 10, 12, 14, 16, 18, 20, 28 and 36 inches apart.

The Fertilizer Attachment is a positive force-feed and any kind of fertilizer can be sown with it, at the rate of from 50 to 2,000 pounds to the acre.

Send for Descriptive Circular.

Price \$67.00

The "Iron Age" (Improved Robbins) Potato Planter

This planter is one of the most thoroughly constructed machines on the market. It is carefully made of the very best materials and consequently is strong, durable and thoroughly practical.

Send for Special Circular.

Price complete with Fertilizer Distributer, Plow, etc. \$80.00

Manuf'r's Price

R.B.D. & Co.'s Price \$72.50

The "Iron Age" Four-Row Sprayer

The sprayer has become in recent years as valuable an implement to the farmer, in successfully and economically raising a crop of potatoes, as any other implement. This sprayer has many new and valuable improvements, and is without doubt the best four-row sprayer on the market.

We have this sprayer equipped with galvanized iron or wood tank as desired.

PRICES

No. 102—With 55 Gal. Tank, Single Acting Pump and Thills. \$70.00

No. 102 D—With 55 Gal. Tank, Double Acting Pump and Thills. \$80.00

"Iron Age" Two Horse Sprayers

Fitted With Wood Tank Only.

PRICES

No. 105—With 100 Gal. Tank, Single Acting Pump and Pole \$82.00
 No. 105 D—With 100 Gal. Tank, Double Acting Pump and Pole \$92.00

The above Iron Age Sprayers are priced with four single nozzles only. For sprayer equipped with four twin nozzles, add to above prices, \$4.50.

The Standard Liquid Sprayer

This sprayer sprays a perfect mist which completely covers all parts of the plants. It will cover thoroughly from six to eight rows, depending upon the mixture and width of row. There are no nozzles to stop up or clog, no pump or pipes to be affected by chemicals. Wheels are adjustable to different width rows.

Send for Descriptive Circular.

Price \$75.00

Perfection Sprayer

The most practical potato sprayer ever put on the market; it can be attached to any wagon, is very simple in construction and durable, nothing about it to get out of order.

This sprayer can be readily adjusted to rows any width apart.

The pump is of large size, strongly constructed, and very powerful; it is also very easy working, one man can easily drive the team and work the pump.

Every sprayer guaranteed to give perfect satisfaction. We do not furnish barrel with sprayer as they can be obtained nearer home at quite a saving in freight charges.

SPRAY PUMPS

For Spraying Fruit Trees
Shrubs, Etc.

Half Inch Hose, any length, 10 Cents Per Foot
Brass Hose Couplings, 15 Cents each

LITTLE GIANT
Bucket Spray
Pump

This pump is constructed of brass, rendering it non-corrosible when used with any of the poison formula. The pump will be found useful for a great variety of purposes, such as washing vehicles, windows, etc.

Price \$3.00

"Kant-Klog" Sprayer

Barnes' New Improved
Barrel Spray Pump

This pump is double acting and has no stuffing boxes or other intricate parts to get out of order. All working parts coming in contact with the liquid are brass. The body of the pump is a large air chamber and after the pump is under pressure it will discharge a steady spray lasting two minutes with one stroke of the handle.

Complete except barrel, consisting of pump, 5 feet of 1/2-inch, 3-ply hose. One Vermorel spray nozzle.

Price \$9.00

Pipe extensions for spraying fruit trees, etc., furnished at 10 cents per foot extra.

"KANT-KLOG" SPRAYER

The sprayer body is made of heavy polished brass or galvanized steel, as desired. Top and bottom are dome shaped, joined to body under heavy pressure, making a complete double seam. The body is supported and further strengthened by a heavy steel band around the bottom.

PRICES

- No. 1.—Galvanized steel body, brass air pump, hose, escape-valve, "Kant-Klog" nozzle, spring shut-off and carrier straps \$4.50
- No. 2.—Polished brass body and same attachments as Number 1 \$6.00

"Auto-Spray"

PATENTED.

A practical compressed air sprayer and useful in the fullest variety of spraying trees, shrubs, growing crops, greenhouses, etc. Made in either heavy brass or galvanized iron as desired. The tank has a capacity of three gallons of solution. The pump is of heavy brass and large capacity. Two or possibly three pumpings will empty the tank under high pressure.

Furnished with either stop-cock or auto-pop as desired.

Style with brass tank and auto-pop is recommended.

PRICES

Auto-Spray. No. 1 A. Brass tank with stop-cock	\$6.50
Auto-Spray. No. 1 B. Brass tank with auto-pop	\$7.50
Auto-Spray. No. 1 C. Galvanized tank with stop-cock	\$4.50

CYCLONE SPRAY PUMP

A MARVELOUS INSECT
EXTERMINATOR

Throws a spray as fine as mist and is, therefore more effectual than any other spray pump and uses about one-tenth the liquid. Very useful about plants, vegetables, shrubs, etc. Also a valuable addition to the hen house for spraying the walls and roost for lice.

Price 50 Cents

Acme Dry Powder Gun

A Simple, Practical Implement for the Extermination of Potato Bugs and all Kinds of Insects, Flies, etc. The Pest of Every House and Garden.

It will handle all insecticides in the dry state—Pure Paris Green, Hellebore, Insect Powder, etc. It is very effective in the destruction of Potato Bugs, Currant Worms and all like pests and for the wholesale destruction of house flies cannot be excelled.

Price 75 Cents

Double Tube Lightning Insect Exterminator With Glass Reservoir

This sprayer is the result of vast experience in this line. It is a perfect machine and being made of glass, handsomely encased, is the end of the law for durability; cannot rust out. The glass reservoir is detachable and is patterned after the Mason fruit can, and is interchangeable with it, making it easy to replace in case of accident.

Price 50 Cents

RACINE BROADCAST SEEDER

It will sow perfectly any quantity to the acre of all kinds of Grain, Wheat, Oats, Barley, Rye, Buckwheat, etc., or Grass Seeds, Clover, Millet, Timothy, Hungarian, etc. It will also sow Flax Seed, Hemp Seed, Peas, Corn and Fertilizers, in fact, anything which requires broadcasting, in a most satisfactory manner. It is the latest Wagon End Seeder on the market and superior to all others. It is heavier and stronger than any other seeder in use.

Price \$8.50

Send for Descriptive Circular.

THE "KING OF THE CORNFIELD"

**Corn Planter and Fertilizer
Distributor**

**Superior to all for Planting Field, Ensilage and
Fodder Corn, Broom Corn, Beans
Peas, Beets and Other Seeds
of Like Size**

This planter is perfectly adapted to every requirement; durable and simple in construction; not liable to get out of order, in consequence of its having no gears, chains or other complicated parts to break or wear out. Anyone can at once understand and manage it. An important feature in this planter is that none of the working parts, except the Drive Wheel, are in motion only at the instant the seed and fertilizer is dropped in the hill, then it remains still until the next hill is reached. Corn planted by this machine germinates much quicker and comes up much more uniformly than if planted by hand.

Circulars and Price List mailed on application.

ECLIPSE CORN PLANTER AND FERTILIZER DISTRIBUTER

Plants Corn, Beans, Peas or Beet Seeds, in hills, drills or checks.

Circulars and Price List mailed on application.

Pierce's Improved Cahoon's Patent Broadcast Seed Sower

For sowing Wheat, Barley, Oats, Buckwheat, Rye, Grass Seed, etc. Sows from four to eight acres per hour, at a common walking gait, throwing out wheat about forty feet wide.

A person entirely unused to sowing by hand can use this machine with perfect success.

 No. 9—6-in. Polished Blue Enamel, Heavy Steel Blade, Polished Handle. Price.....15 cents

FLORIST TROWEL, Extra Heavy, Price 25 cents

Transplanting Fork

Japanned wood handle, malleable tines.

Price, 10 cents.

EXCELSIOR HAND WEEDER

Japanned wood handle, malleable tines.

Price, 10 cents.

Noyes' Hand Weeder

Steel blade. Price, 15 cents.

Haseltine Patent Hand Weeder and Scraper

Price, 25 cents.

Standard Steel Frame Weeder

This weeder is well made, strong and durable. It has a set of runners, not shown in cut, which regulate the depth of cultivation. When the weeder is used on soft ground, and shallow cultivation is desired, the runners may be set so as to cultivate at the depth desired. They are also very useful in transporting the weeder to and from the field and from one field to another.

Price \$8.00

"The Keystone" Weeder

Can be expanded to 7½ feet and narrowed to 30 inches.

Narrowed to 30 inches

Expanded to 7 1-2 feet

The "KEYSTONE" is the only Weeder that is adjustable to any depth and width. It can be used as a shallow cultivator—working close to the plants between the rows until the crops mature—long after other weeders are laid aside.

It has no shafts that will hinder working close to the fence.

IT WILL NOT CLOG—The long, curved, spring teeth are so placed and shaped that clogging is impossible.

It is V shaped, which not only makes it a stronger tool than the straight framed weeders, but adapts itself much better to uneven surface.

Price \$9.00

"Iron Age" Combination Double and Single Wheel Hoe, Hill and Drill Seeder, No. 6

The frame of this tool is made of pipe coupled to malleable castings, thus combining great strength with lightness. It has high wheels and is very easy running.

It places the seed in continuous rows or in hills 4, 6, 8, 12 or 24 inches apart as desired.

Can be very quickly changed to a double or single wheel hoe.

Price \$12.00.

"Iron Age" Double or Single Wheel Hoe No. 1

This hoe has the same general construction of frame and wheels as the Number 6. It can be very quickly changed to a double or single wheel hoe. A great labor saver and very durable.

Price \$7.00.

New Universal Double Wheel Hoe Cultivator, Plow and Rake, No. 14

Specially Designed for Working Both Sides of the Row at One Passing

This new hand implement embraces all the good points of older efforts in the same line, and in addition offers new features which can not fail of appreciation. The special recommendation is the **ADJUSTABLE ARCH**, by which not only the depth of work can be gauged, but which, by an ingenious device, enables the teeth to be pitched at any angle desired.

There are nine adjustments of depth. The attachments are: 1 pair Hoes, 4 Cultivator Teeth, 1 pair Plows, 1 pair Rakes and 1 pair Vine or Leaf Guards. Price, \$5.50.

Price, with hoeing blades, only \$3.75.

Send for Descriptive Catalogue of the Universal Garden Tools.

Fuller's Unique Wheel Hoe No 2

For closely planted crops, as Beets, Carrots, Onions, etc., this hoe is without an equal and can be used the entire season. Having only one wheel it runs between the rows without bruising the tops, and having no frame work it does not tear the growing plants on either side. The great feature of this hoe above all others is that it can be easily and quickly adjusted to any height or pitch desired by means of thumb nuts. The entire hoe weighs less than ten pounds and yet is a most practical tool.

Price \$2.50

Matthews' New Universal Gem Seed Drill, No. 18

This has been perfected to meet the demand for a low price drill. It has all the essential qualities of the larger and more expensive drills, the Seed Dial and Indicator being made from exactly the same patterns.

Price \$5.25

Matthews' New Universal Garden Drill, No. 17

NONE BETTER CAN BE PRODUCED. Medals and testimonials confirming its superiority over all other drills have been repeatedly bestowed upon it from all quarters, and as it has been improved from time to time, it is now everywhere acknowledged to be THE MOST PERFECT DRILL MADE. It has been many years in use and its still increasing sale is the best evidence of its merits.

Price \$6.75

Matthews' New Universal "Hill and Drill" Seeder, No. 16

This Seeder is the same as the Garden Drill with the exception that it has pins in the wheel, which serve as a means for securing the various dropping distances of 4, 6, 8, 12, 16, 24 and 48 inches apart, as well as for sowing continuously in drills.

Price \$7.50.

Matthews' New Universal Constellation Drill, No. 19

With Hoe, Cultivator, Plow and Rake Attachments.

This is the same as the Garden Drill, with cultivating attachments. It can be used either as a Double Wheel or Single Wheel machine and change can be readily made. We do not particularly recommend a two-wheel seed sower, as the nicer work may be accomplished by a one-wheel machine. The two wheels are desirable, however, when used as a cultivator or wheel hoe, as in this way the rows of young plants may be straddled and the cultivating done on both sides of the rows at one passing.

Price \$8.50

Matthews' New Universal Combined Hill and Drill Seeder

With Cultivator, Rake and Plow Attachments.

In this new implement there are combined all the features of the NO. 16 HILL AND DRILL SEEDER, with a HIGH STEEL ARCH WHEEL HOE.

The seeder will plant in drills or in hills varying from 4 to 48 inches apart.

The wheel hoe with the high steel arch allows the cultivation of plants 20 inches high, and has adjustable sides so that it can be expanded up to 20 inches in width and can be used as a single or double wheel hoe as desired.

Price \$10.00.

Syracuse Steel Frame Cultivator

No. 81

"Iron Age" Diamond Tooth Cultivator

Especially adapted to pulverize the soil and leave it smooth and level. Especially recommended where intense cultivation is required. It will not throw the dirt but will thoroughly work the surface of the soil.

Price \$5.00.

Standard Pivot Axle Riding Cultivator

The greatest labor-saving device ever offered in the line of cultivation, adapted for all kinds of farmers in cultivating all kinds of crops on hillside or plain,—in fact, to practically universal use. Pivot wheels—Gang Adjusting Lever, Strong Steel Wheels, and, although it is light and simple in construction, it is very strong, and possesses many advantages not contained in far more complicated tools. Quality of material and finish is the very best.

Send for Descriptive Catalogue and Prices.

“Iron Age” Pivot Wheel Riding Cultivator

One of the best and strongest riding cultivators ever put on the market. Every farmer who contemplates cultivating from ten to fifteen acres of crop should purchase one of these tools.

We have them fitted with both spring hoes and spring teeth.

Send for Descriptive Catalogue and Prices.

Syracuse Steel Frame Spring Tooth Cultivator

This series of Cultivators is especially adapted for use in stony ground. The frames are steel, strong and well put together throughout. The castings are malleable. The teeth are fine oil tempered springs and are alike and interchangeable; they are also adjustable for angle and depth.

Price, with expanding lever and five teeth, \$6.00

The Yankee Pulverizer

A superior Disc Harrow, combining all the late improvements.

Send for Descriptive Catalogue and Prices.

We have this harrow in the cuterway patterns if desired.

The Morgan Spading Harrow

The Morgan Spading Harrow is an "all around general purpose Harrow," and is adapted to all soils and conditions of soils. While not particularly attractive or handsome in appearance, a trial will convince any farmer that it will do the work. As a pulverizer, it is unequalled, and especially on broken or uneven surfaces, among stone, in sod or heavy clay. It has more cutting surfaces than any pulverizer in the market. The high arched frame allows it to pass over obstructions easily. The blades are S-shaped and ground sharp on the cutting edges and overlap; they cut into and lift the soil to a depth of 4 to 6 inches, turning and pulverizing the ground precisely like the hand spade. The gangs which float freely can be adjusted to any desired angle by the hand lever. The cleaners are stationary and clean the blades, no matter what the condition of the soil.

Send for Descriptive Circular and Prices.

Old Original Perry Harrow

The Wood Frame Perry Harrow is the most durable of the spring tooth harrows. Is simplicity itself. Iron plated on the under side and in front, the entire length. Teeth cannot get loose. No levers or joints to wear and get out of repair. Harrows of this kind have been in constant use for twenty years.

PRICES

14-Tooth, \$10.00; 16-Tooth, \$10.00; 18-Tooth, \$11.00.

Aberdeen Spring Tooth Lever Harrow

Made entirely of steel and malleable iron; teeth set to any required depth. Tooth bars round and well elevated to prevent clogging.

PRICES

15-Tooth \$16.00
 17-Tooth \$17.00

Syracuse Spring Tooth Lever Harrow

This style of Harrow has an advantage over the ordinary float harrow in that the depth of work can be quickly changed even while the harrow is in motion, and by operating the levers a uniform depth can be maintained in soils of variable hardness. The harrow will clog less and clear easier than any other harrow on the market.

15-Tooth Harrow \$16.00
 17-Tooth Harrow \$17.00

Syracuse 1-Horse Spring Tooth Harrow

Frame of steel similar to Two-horse Harrow and is the best One-horse Harrow in the market.

Ten Tooth With Lever
Price \$9.00

REVERSIBLE SMOOTHING HARROW

The teeth are reversible, namely by the draw bar being attached to one end of the harrow, they are slanting, as shown in cut, while if attached to the other end they are vertical, same as the ordinary harrow. With the teeth slanting, it is a smoothing harrow. This is not only a smoothing Harrow, but a Pulverizer, a Leveler, a broadcast Weeder and Seed Coverer. It is made in sections of twenty-four teeth each. Two, three or four sections may be, but usually three are used.

Two Section Peerless Smoothing Harrow, weight 135 lbs.....\$10.00
Three Section Peerless Smoothing Harrow, weight 200 lbs.....\$14.50

Steel Land Rollers

The frame of these rollers is made of heavy angle steel. The drums have a steel head with a heavy steel casing. Axles are 1 $\frac{3}{4}$ -inch round machine steel, and extend the full length of the roller.

Oliver Reversible Sulky Plow No. 23

The most complete and up-to-date Sulky Plow on the market.

The easiest to handle and safest to operate on hill-side work.

By means of a "horse lift," which is brought into play by simply pressing forward slightly on the foot trip, the operator's work is diminished by fully one-half and it is not necessary to lean way back in an uncomfortable and often unsafe position to use the hand lever. With this plow the operator can keep his eyes on his team and his hands on the reins, the feet only are needed in order to raise the plow.

Second only to this important improvement is the simple and easily operated tilting device connected with the seat of this sulky, which, when plowing along hillsides while the machine is of course leaning down hill, makes it easy for the operator to keep a level seat and maintain the equilibrium of the plow.

Send for Descriptive Circulars and Prices.

Price, with wheel.....\$3.00

Syracuse New Potato Hoe

This hoe is much used in potato growing sections for hilling or covering. The wings are of steel, so constructed that they will tilt up or down on the standard, and the standards are movable upon the crossbar so that the wings can be placed the right distance apart. The crossbar is strengthened with iron braces, making a strong frame. The handles shift to right or left, so that operator can walk at the side of row.

PRICE \$6.00

The "Improved Bangor" Potato Hoe

This hoe is especially adapted as a potato, corn or celery hiller, or as a coverer. Wings are polished steel, are adjustable to tilt up or down on the standards and the desired distance apart by moving standards in or out upon the crossbar. The wings are made in two parts so that the end or tail of the wing can be dropped down and thus work the earth up under the tops, instead of burying them. The crossbar is strengthened with iron braces, which connect it with the pole making a strong and durable frame.

Wright's Animal Tether

This device is designed to obviate the danger of horses and other animals becoming entangled in the rope with which they are fastened. It consists of a pole about ten feet in length, connected with an upright bar, upon which it turns in any direction. The animal is fastened to the end of this pole by a rope, which is kept taut above his head by means of a spring at the base of the pole; this keeps the pole high in the air until in reaching for the feed the animal pulls it down, thus at all times keeping the rope from under his feet.

Round Chimney Tile

**Chimneys Without
Brick Safe and
Cheap**

This cut illustrates the way in which the Fire Clay Stove Pipe is used in place of the brick chimneys. These pipes having sockets on are set one upon the other, and by cementing them at the joints, they are made perfectly safe from fire, which often occurs from defective flues in brick chimneys.

Polar Hardwood Refrigerators

These illustrations show our Hard-wood "Polar" Refrigerators

Note the general style and beauty, and observe the artistic carvings. No wood is exposed in the interior of these refrigerators, a strong metallic lining covering every part of the inside thoroughly. They are built with heavy air tight walls, thoroughly insulated. They have swing base boards which facilitates the placing of the drip pan and makes sweeping easy. They are trimmed with strong, handsome locks and hinges, and are a high grade and first-class refrigerator in every particular.

The "Polar" Ice Chests

These chests are made of well seasoned pine, nicely grained to imitate oak. Fitted with galvanized steel shelves and ice racks.

Stone Lined Refrigerators

We carry in stock a line of stone-lined refrigerators. Send for Catalogue and Prices.

Butter and Grocers' Refrigerators

This is a refrigerator especially adapted for retail butter dealers and grocers. It is fitted with an automatic shelf which when pulled out closes the opening. Fitted with six massive doors trimmed with solid brass hinges and levers, nickel plated. Ice chamber doors fitted with French bevelled mirror plates, middle provision chamber doors, fitted with clear double glass panels so that the contents of the refrigerator may be seen. Send for prices.

Improved White Mountain Freezers

This is universally the favorite family Ice Cream Freezer, because it combines more excellences than all the other family freezers made. It is the only freezer made with a duplex dasher and double self-adjusting scrapers, which, by keeping every particle of cream in constant motion, causes it to freeze faster and more evenly than can possibly be accomplished by any other freezer.

CHAMPION MILK COOLER AND AERATOR

This is a perfect Aerator, removing flavors arising from excessive cabbage, turnip or silo rations.

It is a complete Deodorizer, removing the animal heat or cowl taste and all odors arising from the absorption by the milk of stable or other unpleasant gases.

It is a thorough Cooler, reducing the temperature of the milk in one minute nearly to the temperature of the cooling medium.

It is equally well adapted to the use of any cooling medium, either running water, or ice water.

Every farmer or milkman handling milk cannot afford to be without one.

New England Root and Vegetable Cutter

This machine is made with a wrought shaft with sections of knives fastened to it and arranged so that a rotation of knives is continually passing a bed knife with cross knives passing between the section of knives; cutting always near the center shaft, making it cut easy and fine enough for cattle or sheep; also making a very regular cut. It will cut one bushel of roots per minute.

Price \$6.00

Buckley's Patent Watering Device

FOR WATERING STOCK IN STABLES

Water in the stable is a necessity for the proper caring of the stock; it should be of suitable temperature, and the stock should have constant access to it.

This is the most practical and economical device for watering cattle in the stable. The iron basins can be kept clean much easier than any form of wooden troughs and there is nothing to wear or rot out.

The check valve at the bottom of each basin prevents clogging of pipes because no hay, meal or other substances can be drawn into them. It also greatly prevents the spread of contagious disease, as the supply of each basin is drawn directly from the main reservoir.

Water from a spring or reservoir is piped into a small tank, and the level of water in the basins is controlled automatically by a float valve on an overflow in this tank.

PRICE.

Stanchion Basins, with brass valve seat and aluminum valve\$1.50 each

BOILER AND FEED COOKER

This feed cooker is so constructed as to get the best possible results from a small amount of fuel. The kettle is of very smooth cast iron, and can be removed from the casing instantly.

HYDRATED LIME

This Lime is specially prepared for use in making Bordeaux Mixture and is being extensively used for that purpose.

Much better results may be obtained from the use of this lime than from the ordinary lime, from the fact that no further slaking or screening is necessary, hence clogging of the sprayer is overcome by its use.

The following has been found to be the most satisfactory formula for making Bordeaux Mixture: Six pounds prepared lime, five pounds copper sulphate and 50 gallons of water.

Prepared Lime is in a powdered form and put up in forty pound paper bags.

Price, per pound 2 cents.
 Price, per 40 pound paper bag.....40 cents.

Lion Brand Bordeaux Mixture

This mixture is a scientific preparation and combined in a manner heretofore unknown, thus enabling the manufacturer to place it on the market in a practical and usable shape, as by simply adding water and stirring, it is ready for use.

One gallon will make 50 gallons by the addition of 49 gallons of water. Actual cost to you when ready for use 2 cents per gallon.

It Prevents Potato Rot, Potato Blight, Downy Mildew and Anthracnose of Grape, Peach, Pear and Cherry Blight, Etc.

1 Gallon Can, \$1.00. 1 Quart Can, 40 cents.

WHALE OIL SOAP

Makes an excellent wash for Trees, Rose Bushes and Plants, destroys insects and their eggs. Price Per Pound, 15 Cents.

BUG DEATH

Pat. March 16 and Nov. 9, 1897.
 Pat. in Canada Nov. 9, 1907

This Insecticide and Plant Food Combined

has been on the market for nine years and its sales have shown a large increase each year. We can say to our customers that we give Bug Death our fullest endorsement. While the first cost to kill the bugs on an acre of potatoes is rather more than the arsenical insecticides, the results at harvesting time are entirely satisfactory, and where practical tests have been made, the extra yield of marketable potatoes has more than paid the entire expense. It is **non-poisonous**, which makes it perfectly safe to use on all plants or vines.

Very Beneficial Results are obtained by using Bordeaux Mixture in connection with Bug Death, and they can be mixed and sprayed on the vines at the same time, with any of the spraying machines on the market for that purpose. **Bug Death prevents blight.**

Use Bug Death for your fruit trees. It kills the insect pests, protects the trees, promotes their vigorous growth, gives freedom to the bees and insures quality and quantity of fruit.

No other agent can do this. Bug Death must be the reliance of the fruit grower, who by spraying seeks after perfect fruit. **Bug Death costs you nothing.** The increased yield and improved quality more than pays the expense. A perfectly sure, safe and effective insecticide.

Bug Death kills the potato, squash and cucumber bug, currant and tomato worm, also other plant and vine eating pests.

Dickey Duster

IF USED DRY

Apply with Dickey Bug Death Duster or a cloth bag of right mesh; 12½ to 25 lbs. per acre per application. The more freely used the better the plant will thrive. Dust plant evenly and thoroughly.

PRICE LIST

ENGLISH BUG COMPOUND

A BUG KILLING WONDER

A safe, sure and cheap insecticide for destroying the pests, which attack Potato Vines, Cabbages, Squash, Cucumber, Melons, Tobacco, Currant, Rose Bushes (Chafer), Pear, Cherry, Plum, or Quince Slug, Grapevine, Flea Beetle, Raspberry, Raspberry, Gooseberry, Small Shrubs, or for killing any coleopterous Bug whatever.

English Bug Compound kills every coleopterous insect known. It is a combination of chemical poison and fertilizers, mechanically incorporated in a manner that prevents loss of strength by evaporation or by age. It is a dark, gray colored, flour fine powder, and its application to the afflicted plant, kills the bugs at once and promotes the growth when the insects are destroyed.

It is an established fact that a Paris Green water mixture produces a lifeless, soggy potato; while the use of English Bug Compound (at a great ultimate saving) brings forth a healthy, hardy, nutritious vegetable. The smallest grain acts as a deadly poison to the bugs and is food and drink to the vine. The extreme fineness allows a most thorough distribution and the smallest quantity will spread itself over a large space.

Send for circular showing testimonials from some of the prominent farmers who have used English Bug Compound. We sold a carload of these goods last year and found them very satisfactory. English Bug Compound does not burn or injure the vine, and is sure death to the bugs.

Price

Per pound	\$.04.
Per 100 pounds	\$3.00.

SULPHO-TOBACCO SOAP

A Wonderful and Inexpensive Insecticide

Sulpho-Tobacco Soap is a powerful agent for the destruction of all bugs and insects. One or two applications will rid plants of the pests. Full directions with each cake.

Destroys cabbage- and potato-bugs, currant-worms, lice, green-fly, mealy bug, red spider, etc. Sure death to all plant insects indoors and out-of-doors. Of special value for spraying shrubs, fruit-trees and vines.

3-oz. Cake makes 1½ gallons prepared solution. **10 cents.**
Mailed, postpaid, for **13 cents.**

6-oz. Cake makes 4 gallons prepared solution. **20 cents.**
Mailed, postpaid, for **28 cents.**

10-lb. Cake makes 80 gallons prepared solution. **By Express, \$3.60.**

Free with every order, "The Window Garden," a booklet by Eben E. Rexford, giving valuable information on the cultivation of plants and the extermination of insects.

KNOX-EM-ALL

FLY OIL. THE BEST THING ON THE MARKET

For ridding Horses and Cattle of flies and all insect pests. And Poultry of lice and mites. Gad flies will not work on Sheep and they will not have Grub in the head. Inoffensive and harmless to persons and stock. Deadly to flies and lice. One hundred per cent. more lasting in effect than any other kind.

Contains no fish oil or other objectionable ingredient. Can be used freely on Cows' Bags without inconvenience to milker or injury to the milk.

Cows give more milk and pay \$8 to \$10 per head more during the season at a cost of about 50 cents per cow. It can be used on horses without gumming or otherwise injuring the hair, and affords instant relief, making them thrive and drive better.

Directions:—For flies apply freely with a good sprayer. For lice spray the roosts, nests, and all places where vermin find lodgment, including the poultry when on the roosts.

Price, per gallon, 60 Cents

WATERING TROUGHS

These Watering Troughs are made of 2-inch selected White Pine, 2 feet wide, 2 feet high, outside measure. They are perfectly tight and very durable. They are the cheapest and best style of Watering Troughs on the market. Made in any length.

Price \$1.50 per foot in length.

CAST IRON SINKS CLOVER LEAF PATTERN

This superior sink is recognized and endorsed by builders and plumbers as the best. It is heavy, strong, straight, and has a most perfect surface. The edge is furnished with a raised bead which adds to the neatness and prevents wetting the outside finish. It will drain to the cesspool end if set level.

The "Globe" Rubber Bucket Chain Pump

These pumps are constructed in the most thorough manner and of the best material obtainable.

PRICE LIST

Globe Pump Curbs	\$2.00
Chain Pump Tubing, per ft.....	\$.05
Galvanized Pump Chain, per ft.....	\$.04
Rubber Buckets, per set of three... ..	\$.45

In wells 20 feet deep, or over, it is better to use four rubber buckets instead of three.

BEE KEEPERS' SUPPLIES

The Dovetailed Hive

The Dovetailed Hive is taking the lead of the single walled hives, as it contains many of the most desirable features of the various hives for the rapid handling of bees and is one of the cheapest hives manufactured.

It is dovetailed together as shown in cut and that is what gives it its name.

We carry these hives in both eight and ten frame, fitted with two supers. Write for Prices.

We carry bee hives in the flat only.

One Piece Section-Honey Boxes

These sections are made from selected white basswood and are sand papered and rubbed to a smooth, high polish. We carry nothing but No. 1 sections in stock and are put up in boxes containing 500 each.

- Size $4\frac{1}{4} \times 4\frac{1}{4}$, width $1\frac{7}{8}$ inches, and $\frac{1}{8}$ -in. thick.
- Size $4\frac{1}{4} \times 4\frac{1}{4}$, width $1\frac{1}{2}$ inches, and $\frac{1}{8}$ -in. thick.
- Size $3\frac{5}{8} \times 5$, width $1\frac{1}{2}$ inches, and $\frac{1}{8}$ -in. thick.
- Size 4×5 , width $1\frac{1}{2}$ inches, and $\frac{1}{8}$ -in. thick.

PRICE LIST

Per 100	\$.80.
Per 500	\$2.75.
Per 1,000	\$5.50.

Double Grooved Foundation Fastening Hoffman Self-Spacing Brood Frames

As thick-top frames, practically prevent the building of burr combs, frames with a thick top bar are almost universally used. The top bar is $\frac{7}{8}$ -in. thick and $1\frac{1}{8}$ -in. wide. The top bar is made with a double groove on the under side. One of the grooves is fitted with a bevel strip which presses the thin piece between the grooves against the foundation holding it perfectly straight and exactly in the center of the top bar. To put in foundation, insert edge in the groove in center of top bar, slip in the wedge in other groove and tack in place with two or three small wire nails.

Prices not set up

Per lot of 10.....	\$.40.	Per lot of 100.....	\$3.50.
--------------------	---------	---------------------	---------

COMB FOUNDATION

This foundation is made from the best grade of pure beeswax and before being made into foundation is entirely cleansed of all foreign substances.

PRICES

Standard Brood...58c per lb. Light Section...65c per lb.
If foundation is wanted by mail, add 25 cents per pound for postage.

BEE KEEPERS' SUPPLIES

GLOBE BEE VEIL

Has five cross bars riveted through the center at the top. These button to studs on the neckband. The bars are light spring steel, the neckband is of hard spring brass and the cover is of handsome, light material. It is very easily put together—no trouble to put on or take off. It protects against mosquitoes, flies, bees, gnats, etc. The veil weighs only five ounces. Price, \$1.00.

Parker's Machine for Fastening Starters in Section Boxes

Fasten machine to table with screws that are sent with it. Dampen the under side of point of lever with honey or water to prevent its sticking to the foundation. Place section in position with strip of foundation just under the end of lever; press lever down on foundation by lifting handle, turn foundation up against end of lever and slide lever off of foundation by lifting on handle and drawing it backward, which fastens the foundation to section.

Price for $4\frac{1}{4} \times 4\frac{1}{4}$ section...30 cents.
By mail45 cents.

PAGE FEEDER

One of the best feeders for feeding over the brood nest. It is made from a solid block of wood and is covered with wire cloth. It has a bee space under bottom and also at top between wire cloth and top of partitions. Bees cannot escape while feeder is being filled. A small hole cut in mat and feeder set over same will be found a convenient way of using it, but it can be used in many ways.

Each nailed up complete, 40c.; by mail, 65c.

Standard Corneil Smoker

Price, 90c each. By mail, \$1.15 each.

We also carry the Cleated Separators or Fences for the $3\frac{3}{8} \times 5 \times 1\frac{1}{2}$ -inch plain section boxes.

Clark's Cold Blast Smoker

Price, 60c.

By mail, 80c.

for the $4\frac{1}{4} \times 4\frac{1}{4} \times 1\frac{1}{2}$ -inch plain section
